# INNOVATION

UNISORTING solutions do a great deal for your business. And they do it well.

# MORE VALUE<sup>+</sup>

A future-oriented technological reponse for your business.

UNISORTING is a brand of the UNITEC Group that provides Packing Houses specialized in the production and handling of **apples, pears, dates, avocados, onions, potatoes** and **peppers** with **technological and innovative solutions**.

UNISORTING experience, combined with UNITEC Group know-how, has made UNISORTING a reliable and qualified reference point in process optimization with the aim of **reducing handling, selection, sorting and packing costs** and **facilitating their use**, fully **safeguarding the characteristics and delicacy of each fruit**.

## Full vision as never before

Unisorting has designed and manufactured reliable **full vision systems** to detect **external and internal quality** of fruit.

## High level of automation

Unisorting solutions allow to **greatly reduce the need of manual labor** for sorting and packing.

## Optimization of labor

Unisorting systems **reduce the need for manpower** and **optimize the use of labor**.

## Handling cost reduction

Unisorting systems allow **considerable costs saving** compared to the handling costs borne by packing houses.

All of this is supported by an **efficient and professional service**, which is the result of the engagement and experience consolidated over **100 years of UNITEC Group**, able to efficiently assist the Customer in every need.

Our solutions are **100% designed and manufactured in-house**. We want to give real answers the **improvement needs of our Customers, in every stage of the handling process**. To keep our Customers highly competitive on the global market. To help them win every new challenge, now and in the future.
