DREAM JOB

A person wearing a white lab coat and white gloves is holding a small, rectangular electronic device. The device has two screens, one on the left and one on the right, both displaying a dark, textured surface. The person's hands are positioned on the sides of the device, with the left hand supporting it from below and the right hand holding it from the side. The background is dark and out of focus. The image is overlaid with a red and blue color gradient.
