BATTERY MANAGEMENT SYSTEMS

LIBAT™ - LITHIUM BATTERY SOLUTIONS

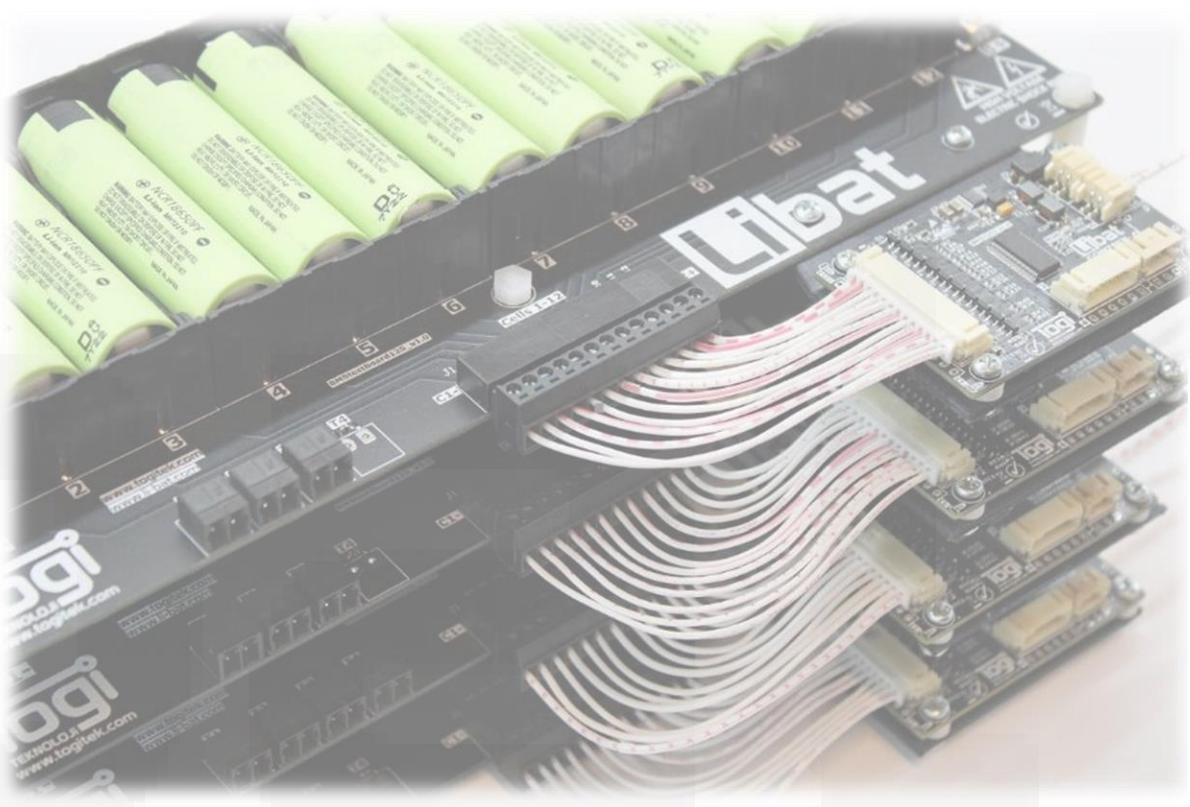

LiBat™ is an exclusive solution partner for your lithium battery, battery management systems (BMS) and battery powered energy applications. We design, develop and manufacture turnkey solutions for lithium battery applications in house. We are not only a supplier for you, we provide most suitable solution at system level.

DESCRIPTION

Battery Management System (BMS), is an essential controller of every lithium battery applications and many of them requires a BMS. As LiBat™ team, we are trying to make lithium batteries and battery management systems, easy-to-use, smarter and affordable for all type of customers.

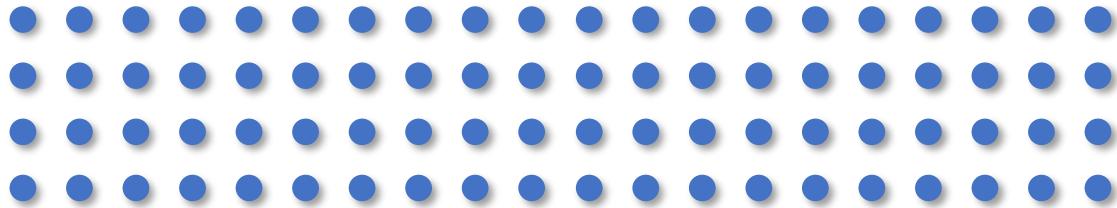

MAIN FEATURES

- Compact and robust design
- Passive balance, adjustable duty cycle
- Scalable master – slave architecture
- Assignable user button functionalities
- Observable system status via LED
- Compatible peripheral units (e.g display)
- Project specific function and customization
- Live Monitoring and Event Status
- Cloud Connection, Remote Monitoring
- Parallel Battery Packs Configuration
- LiMon™ PC Tool for all type of BMSs
- Assignable flexible I/O Functionalities
- Online firmware upgrade (always up-to-date)
- Detailed LOG records via PC Tool
- Power profiles (sleep, power down, wake up)
- Parallel battery configuration (specific models only)
- SoC and SoH calculations (more SoX on the way)
- Multi-Master configuration
- Comes with precrimped cables, NTCs
- Multi Master Interconnection for distributed packs
