

THE FUTURE OF E-MOBILITY

KOSTAD

KOSTAD

Electromobility enables improving air quality and reducing dependency on fossil fuels, which in turn allows addressing climate change concerns.

WHY E-MOBILITY?

THATS WHY!

NOISE REDUCTION

KOSTAD

The future of mobility is electric, but there are challenges ahead

Regulation, customer climatic consciousness and technology will drive the acceleration of electric mobility globally.

FUTURE ISSUES?

KOSTAD

1.3 million public charging stations by 2025. 2.9 million by 2030.

Deploying another 2.7 million public charging points in Europe by 2030 would require an investment averaging €1.8 billion (or only 3 % of the EU's annual budget for roads and infrastructure).

INFRASTRUCTURE!

INFRASTRUCTURE EUROPE

Charging stations for electric vehicles must be placed along the main European motorways at least every 60 kilometers from 2026, the European Parliament decided on Tuesday.

**Every 60 kilometers
from 2026.**

Dependability Through Quality: The Key to Our Vision

To achieve all of this, one thing is paramount: high-quality charging solutions that you can rely on.

CHARGING UNITS

KOSTAD

MANUEL MIKIC

As Head of Sales, he is responsible for overseeing the entire project management process and providing service to our current and potential customers.

VISION & MISSION

One of our objectives is to collaboratively expand the fast charging station infrastructure across Europe with our customers, ensuring seamless and effortless mobility for all types of electric vehicles. We aim not only to increase the number of charging stations but also to significantly reduce charging times, making the electric driving experience even more appealing.

UNITY DC CHARGING

A 3D rendered white architectural structure with a perspective view leading to a bright light at the end of a tunnel. The structure consists of multiple rectangular frames that recede into the distance, creating a sense of depth and movement. The lighting is soft and even, highlighting the clean lines and surfaces of the structure.
