FOR LIFE SCIENCES

SHAPING THE FUTURE OF LIFE SCIENCES

Rome - Auditorium della Tecnica
13-14 October 2026

Driven by ALISEI, the event has been the leading national forum for cross-sector dialogue in the Life Sciences for over 10 years.

Over time, it has grown into a hub for networking, knowledge exchange, and collaboration among Italian and international stakeholders, helping showcase the strength of Italy's Life Sciences sector on the global stage.

Meet in Italy for Life Sciences brings together four tightly connected pillars: Conference, B2B & B2R Meetings, Workshops, and an Innovation Program.

Its integrated format—from the main conference and deep-dive sessions to one-on-one matchmaking—has made it a dynamic project, open to all stakeholders across the value chain, capable of fostering the exchange of perspectives and new collaboration opportunities.

A project of

MIT4LS 2026

MIT4LS returns in 2026 in its original format, with a renewed, innovation-driven approach, once again hosting in Italy a cross-sector, inter-institutional event dedicated to advancing the life sciences value chain. A landmark national gathering that will draw organisations,

companies, professionals and institutions from across Europe and around the world — fostering dialogue, connections, and opportunities for partnership and investment, while showcasing assets, expertise and innovation.

KEY THEMES OF THE 2026 EDITION

STRENGTHENING THE VALUE CHAIN
