IT Admin of your customer
onboarded in 5 minutes

Free up your support by integrating a **white label interface** for configuring **SSO connections** with your customers directly into your solution with **an interactive 5 min step-by-step onboarding for your customer's IT Admin**.

algolia

Start to Configure Your SSO
Select your identity provider to allow your users to sign in to Algolia

Search an SSO

Azure AD	ADFS	okta
PingOne	PingFederate	Google
IBM Security	KEYCLOAK	SAML

I DON'T SEE MY PROVIDER

Customize the onboarding with **a look and feel that aligns with your brand** requirements

How it works

1 Invite

Send a link by email to the IT Admin of your customer to configure within minutes the access of your service via their SSO

2 Follow progress

View in real-time the progress of the SSO configuration by the IT Admin of your customer and help them if needed
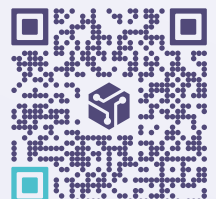

3 Admin try

In less than 5 minutes, IT Admin can set up the SSO connection and test the SSO login at the end of the process
