

THE A900

RELIABLE, ROBUST, MULTI-PURPOSE UAV HELICOPTER

Introducing the Alpha A900

The A900 is a STANAG-compliant, fuel-powered rotary UAV already deployed in 12 countries across the globe.

A robust and versatile platform, the A900 can be used for many missions, from ISR and border control to infrastructure inspection, communication relay, advance observation and as aerial targets.

The A900 includes an onboard generator providing up to 150W for power-intensive payloads, a laser altimeter and navigation lights. It is designed to operate in GPS denied environments.

Key Capabilities of the A900 Rotary UAV Platform

4H FLIGHT AUTONOMY	UP TO 8L FUEL TANK	SPECIALIZED IN MARITIME MISSIONS	AUTOROTATION
UP TO 4 KG PAYLOAD CAPACITY	FULLY AUTOMATIC MISSION EXECUTION	REDUNDANT CRITICAL SYSTEMS	UP TO A 100 KM RANGE

Tactical Applications

The A900 has been developed for high-stakes missions, where rapid deployment, simple operation, and seamless integration with tactical defense systems are critical to mission success.

- ▶ Maritime Surveillance
- ▶ Border Control
- ▶ ISR Missions
- ▶ SAR Operations
- ▶ Target Systems
- ▶ Key Infrastructure Inspection

Weather Proof & Maritime Ready

Our Customers

A900 Specifications

ALPHA 900

- ▶ 4HR AUTONOMY
- ▶ 100KM+ RANGE
- ▶ <25KG MTOW
- ▶ 4KG PAYLOAD
- ▶ AUTOROTATION
- ▶ FUEL POWERED

- Cruise speed: 60-100 Km/h
- GPS denied navigation
- Boxer low vibration, fuel-powered engine
- Redundant critical systems
- Built for "STANAG" compliance
- Automated autorotation
- Fully autonomous flight
- Onboard 150W generator to power payloads
- Electrical components IP64 compliant or higher
- 4 payload bays for flexible, interchangeable sensors

Payload & Sensor Integration

The A900 supports a wide range of interchangeable and customizable payloads and sensors, including:

- ▶ EO/IR cameras
- ▶ LiDAR
- ▶ Cargo release mechanism
- ▶ Maritime AIS Radar
- ▶ IMSI capture

About Alpha Unmanned Systems

With over 10 years of experience working closely with the world's most important defense customers, Alpha's unmanned helicopters support key maritime security and ISTAR tactical missions.

Our rotary UAV platforms are fully autonomous and fuel powered, giving them unmatched range and mission flexibility. Alpha is an independent, privately held company and is ISO9001 certified.
