

Company Overview

At SecuraNova, we are redefining how businesses access and manage cybersecurity expertise. Our AI-powered platform connects organisations directly with our elite global network of vetted cybersecurity professionals, providing flexible, cost-effective, and outcome-driven security solutions without the high costs and delays of traditional consultancies or the unpredictability of crowdsourced models.

Founded by former GCHQ and Synack security leaders, SecuraNova was created to solve the industry's most pressing challenges: excessive costs, long lead times, rigid vendor contracts, and a shortage of skilled talent. By leveraging our global network of consultants through our trusted, scalable platform, we enable companies to rapidly engage top-tier security experts and receive tailored services - from penetration testing and compliance support to virtual CISO leadership - at a fraction of the traditional price, and in days, not weeks (most projects start in under 24 hours).

The Problem We Solve

- **High Costs & Complexity** - Traditional consulting is expensive, and managing multiple vendors is inefficient.
- **Slow Service Delivery** - Security assessments can take weeks or months to schedule.
- **Lack of Skilled Experts** - A global talent shortage makes finding **qualified cybersecurity professionals** difficult.
- **Rigid, Vendor-Locked Solutions** - Fixed contracts and one-size-fits-all services don't align with business needs.
- **Inconsistent Quality & Coverage** - Crowdsourced models lack **predictability and guaranteed outcomes**.

Our Solution: Cybersecurity On demand. Expert-Led. Platform-Powered.

- ✓ **On-Demand Expertise** - Instantly access certified cybersecurity specialists across domains, when and where you need them.
- ✓ **Flexible & Scalable Delivery** - Engage trusted experts without long-term commitments or vendor lock-in -scale services to fit your evolving needs.
- ✓ **AI-Guided Service Matching** - Our AI Consultant recommends the right services, writes your Statement of Work, and aligns delivery with your goals.
- ✓ **Predictable Outcomes & Pricing** - Transparent pricing and expert-led execution ensure quality results you can rely on.
- ✓ **Simplified Procurement** - One contract, one platform - manage all cybersecurity engagements centrally and efficiently.
