Your solutions for German Learning Support — Smart, Fast, and Practical

Seamless Language Learning

Combines intuitive digital tools with real-world content to help students learn German efficiently — anytime, anywhere.

Differentiated Teaching

Empowers teachers to effectively manage heterogeneous classes with different age groups, countries of origin, and language levels.

Teacher Support Center

Supports teachers through basic training, regular workshops, and practical guidance.

A comprehensive digital solution for DaF instruction

MintiCity is an innovative digital teaching and learning platform for DaF (German as a Foreign Language) instruction. It combines proven teaching methods with the advantages of digitalization, offering teachers maximum flexibility. Unique features such as gamification, personalization, and interactive content make the learning process engaging and efficient. The result is captivating lessons that significantly enhance students' motivation and learning success.

Who is behind it?

DAS Akademie German Academy for Languages

Nearly 30 years of expertise in language education:

- Since 1998: Over 8,000 participants from more than 60 nations in language camps
- Since 2001: Pioneer in digital education with innovative, interactive learning content
- Successfully supported over 35,000 language learners – both online and in person

MintiCity is developed with practical relevance:

- Created by teachers for teachers – continuously optimized through feedback

International presence:

- Locations in Berlin, Izmir, and Istanbul
- A global perspective and cultural diversity

Contemporary Educational Approaches

Gamification and Edutainment

- Age doesn't matter, motivation does! Play today, understand tomorrow.

Personalization and Differentiation

- Individual learning paths for every student
- Learn at your own pace

Competency-Based Teaching

- Spark curiosity, create solutions!

Blended Learning

- A combination of in-person teaching and digital learning methods

Modern Technology and Content

- Regular updates of learning content and pathways
- Accessible on all devices
- Compliant with data protection regulations

Didactically strong and educationally valuable

With MintiCity, you create engaging and effective lessons - for lasting learning success.

A variety of customizable resources:

- Learning videos
- Learning games
- Audiobooks
- Interactive exercises
- Short stories
- And much more

Tailored solutions for every learning age

Our recommendations are aligned with age-appropriate developmental stages, but the focus is always on the individual learning age to provide students with the best possible support.

Preschool to Grade 2

Mini Version: For children without reading and writing skills.

Maxi Version: For children with reading and writing skills.

Learning Together, Benefiting Individually – Educational Advantages for Everyone

MintiCity transforms the educational process and creates a learning environment that offers unique opportunities for everyone involved. Teachers, students, parents, and school administrators – each group benefits from the advantages of our platform.

ADVANTAGES for ...

TEACHERS

STUDENTS

**SCHOOL
ADMINISTRATORS**

PARENTS

Efficient Teaching, More Room for Creativity

MintiCity simplifies and streamlines the school day, making it more efficient. Automated processes and well-thought-out didactic content free up time for creative teaching and individualized student support.

TEACHERS

Teaching with a system for more time and creativity.

Differentiated teaching:
Materials tailored to age and skill level.

Didactically and pedagogically valuable:
Systematic teaching with playful interaction.

Seamless integration:
Compatible with all curricula and teaching materials.

Evaluated LMS:
Effective digital teaching and learning.

Teacher Support Center:
Mandatory basic training, workshops, best practices, and discussion forums.

Diverse learning materials:
Videos, exercises, games, audiobooks, and more.

Learning success assessments:
Track and review progress.

Material generators:
Create worksheets and games with just a click.

Gamification
Playful teaching for greater engagement.

Flipped Classroom
More time for in-class application.

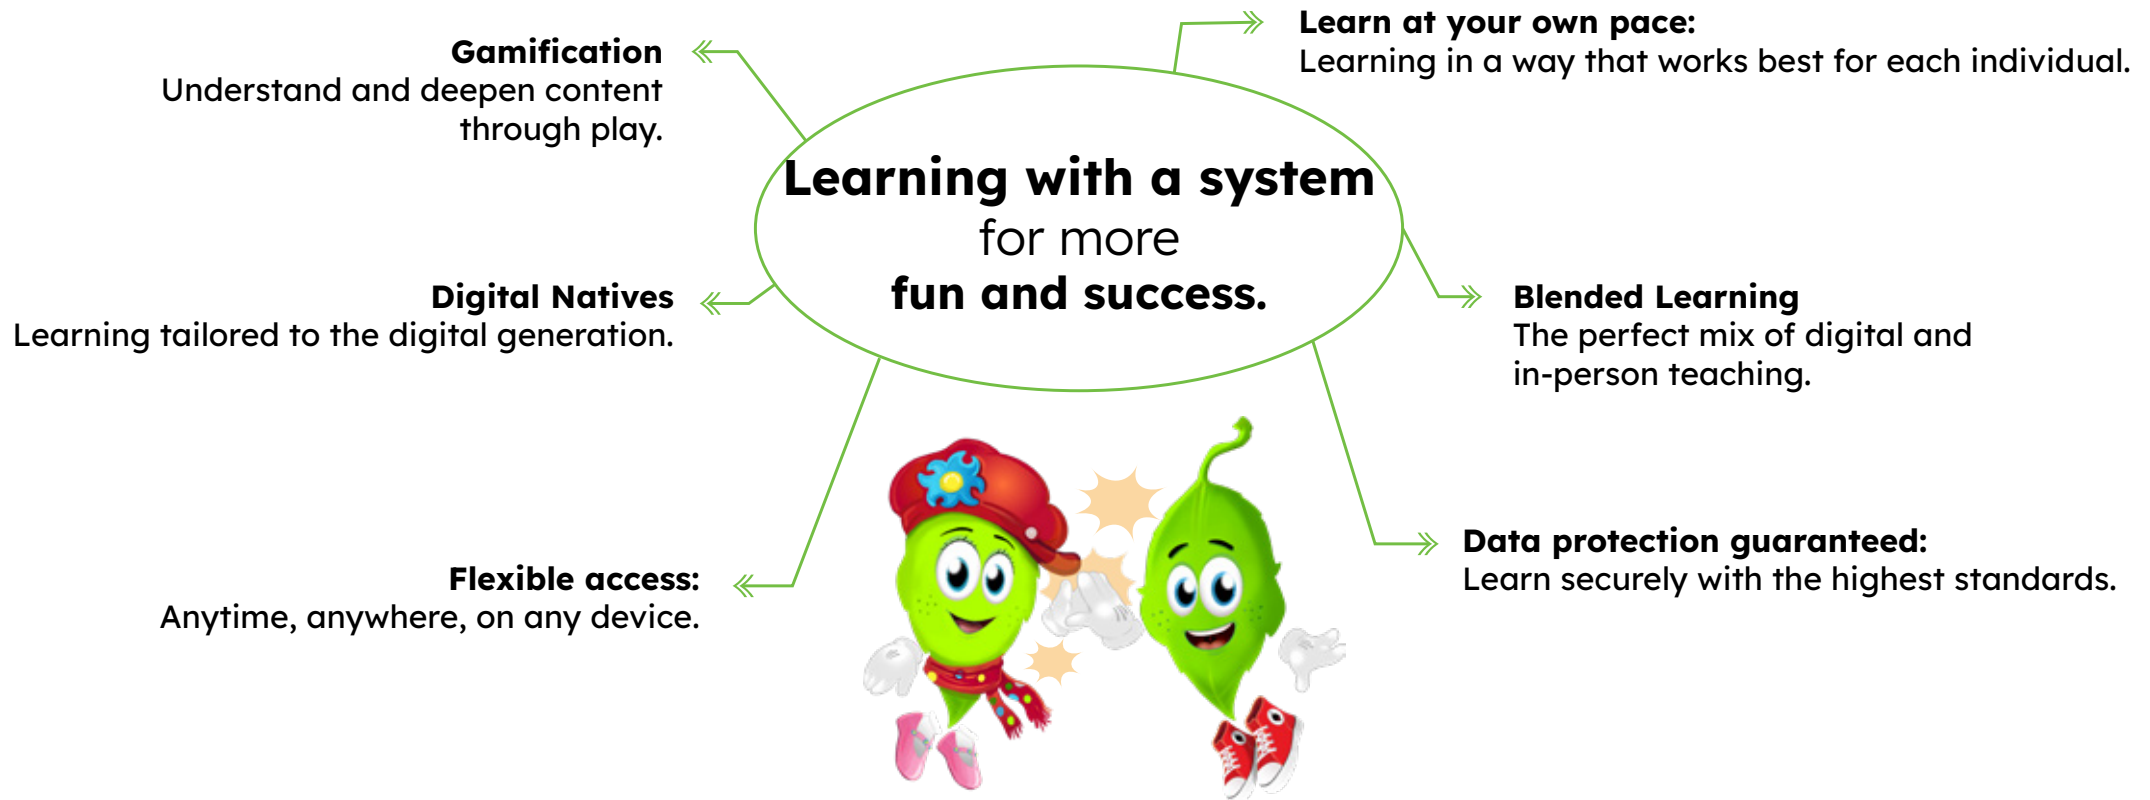

Data protection guaranteed:
Reliable security standards.

Blended Learning
Flexible mix of in-person and digital teaching.

STUDENTS

Students benefit from engaging, interactive lessons that cater to their digital affinity while ensuring sustainable learning success. Personalized learning paths, gamification, and flexibility make learning more effective, motivating, and tailored to individual needs.

Stronger Together – Benefits for School Administrators and Parents

MintiCity supports schools on their journey into the digital future, creating an inspiring learning environment. School administrators benefit from enhanced teaching quality, while parents value the motivating and positive learning experience their children enjoy – often even shared together.

School Administrators: Added Value for Your School

- **Promote digital transformation:**
A modern building block for future-ready schools.
- **High teaching quality:**
Supports teachers and improves learning outcomes.
- **Efficiency and structure:**
Clear overview of progress and resources.
- **Motivated teachers and students:**
An inspiring environment for everyone.
- **Flexible and compatible:**
Fits all curricula and learning models.

Parents Benefits for Your Family

- **Strengthen digital education:**
Children learn in a forward-thinking and motivated way.
- **Happy learners:**
MintiCity makes learning effective and enjoyable.
- **Trust in education:**
Parents see progress and positive results.
- **Shared learning:**
Some parents learn alongside their children and enjoy the content.
- **Safe and reliable:**
High data protection standards ensure a secure environment.

Let's rethink education together and create equal opportunities
