- \* Environment & Sustainability Management.

**Environment & Industrial Activities in Harmony**

# Value Proposition

## BCG

Offers Consulting, Engineering & Outsourcing services with an environmental focus, in addition to meeting cost, competitiveness, quality, safety and productivity indicators.

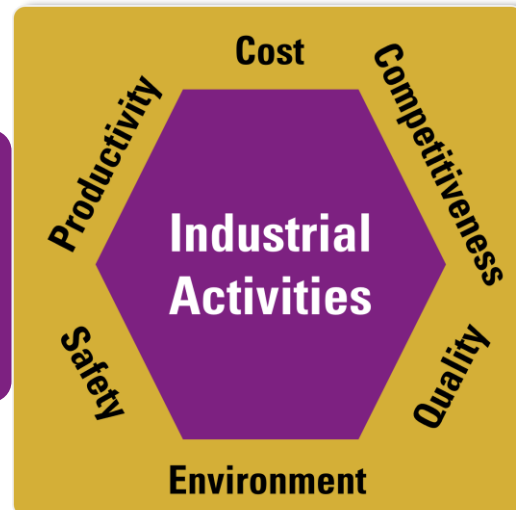

Through:

With our proposal, the environmental factor is introduced into the center of industrial activities through the following means:

- ∞ **Biotechnology**, biotechnological processes to replace existing industrial processes.
- ∞ **Ecotechnologies**, clean technologies are introduced, with less environmental impact.
- ∞ **Eco-strategies**, actions to achieve a sustainable positioning based on ESG criteria.
- ∞ **Eco-industrial education**, making all members of the organization protagonists to achieve sustainable development goals.
- ∞ **Eco-industrial design & Operation**, where industrial processes are designed and operated with an environmental focus, in addition to meeting cost, competitiveness, quality, safety and productivity indicators, which we call “2CSPEQ Processes”.
