

Who we are

SUNRISE is a Horizon Europe Cancer Mission consortium bringing together researchers, schools, public-health experts, youth organisations and technology partners across Europe.

What we are working on

We are developing and testing inclusive digital tools that help adolescents build cancer literacy, life skills and sustainable behaviours for long-term cancer prevention.

What's the one thing we need next

We need committed scale-up partners (schools, health organisations and policymakers) to help embed effective digital cancer-prevention tools into routine adolescent health and education.

**5 years Mission Cancer:
Stronger Through Connection**
