TURKISH ACADEMY OF SCIENCES

## TURKISH ACADEMY OF SCIENCES (TÜBA)

### Collaboration with Members regarding:

- Promotes science diplomacy through collaborative endeavors with sister academies and umbrella organisation,
- Encourages collaboration for advancing science and academia to engage in collaborative projects, joint research initiatives, and knowledge-sharing activities.

### Priorities/Main areas of work:

- Promoting scientific research in natural sciences, social sciences, engineering, and health sciences.
- Foster innovation, supporting interdisciplinary studies, and advancing the scientific community on a global scale,
- Prioritize periodical and non-periodical open-access publishing outcomes of the scientific activities carried out periodically by thematic and specialized working groups consisting of its members and leading scientists of the country.

### Current opportunities for collaboration:

- Offers research grants, funding for joint projects, participation in conferences and workshops, and access to scientific networks,
- Members and partners are encouraged to explore these opportunities and actively engage in collaborative endeavors.

### Opportunities (call for prizes, nominations, events, etc.):

- Announces calls for various prizes, nominations, events, and programs including prestigious awards recognizing outstanding contributions to science and academia, opportunities for young researchers, scholarships, and fellowships,
- Members and sister academies are invited to stay updated with TÜBA's announcements and actively participate in these opportunities.

## TÜBA's Potential Hosting the World Science Forum in 2026

- 1. Research Collaboration:** TÜBA facilitates collaborative research projects among scientists and researchers.
- 2. Capacity Building:** TÜBA contributes to capacity building initiatives by organizing workshops, seminars, and training programs aimed at enhancing the skills and expertise of scientists and academics.
- 3. Promotion of Science and Education:** TÜBA actively promotes science and education within WSF participants by supporting initiatives that aim to improve science literacy, encourage scientific inquiry, and foster innovation and entrepreneurship among young people.

We hope that hosting the World Science Forum 2026 in Istanbul will provide a valuable opportunity for participants to collaborate and coordinate their efforts in several key areas: enhancing scientific and academic cooperation, advancing sustainable development, and promoting the exchange of economic knowledge.

***Thank you.***
