Proposal activity: *DRS-01-02 Open Call*

Description of the Organization

Trilateral Research Ltd.:

- *Based in UK & IE, founded in 2004. A leading research and innovation, consulting and AI technology development company. We address complex societal problems by helping organisations make the best use of data to support decision-making.*
- *Interdisciplinary team of social scientists, data scientists, legal experts, data ethicists, communications and business management.*
- *Sector expertise and established networks in crisis & security, defence, healthcare, public sector, energy and climate*
- *Experience in over 90 R&D projects, with a strong publication record.*

EU Projects Experience:

- *Partners in c.90 projects across FP7, H2020 and Horizon Europe.*
- *50+ projects ongoing.*
- *Large number under 'Civil Security for Society' in both the DRS and FCT space.*
- *Experience with project coordination. E.g., CC DRIVER (est. LEA projects cluster), TRANSCEND, VERITY.*

Proposal idea

- *Role in the project: Coordinator*
- Project Objectives:
 - To improve interactions and transfer of knowledge between scientific communities, responders, risk managers and citizens.
 - To improve risk perception and awareness among citizens and bring them to the centre of disaster management practices.
 - To build on previous projects and good practices from local to international level to improve collaborative disaster management practices.
