

advanced biotechnology to convert fast & efficient

**AD+**<sup>TM</sup> converts organics fast at up to 90% to **bioenergy**

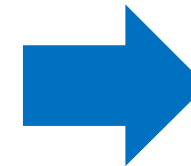

**AS+**<sup>TM</sup> converts wastewaters up to 99% to **clean water**

**AD+**<sup>TM</sup>

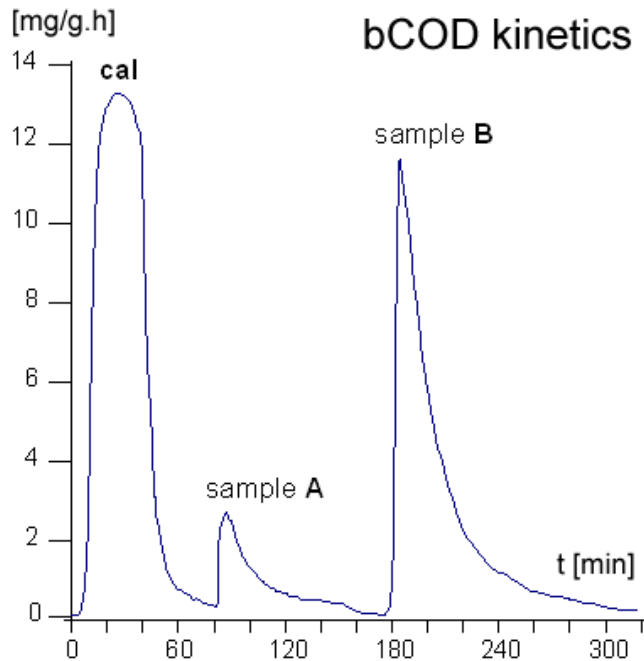

**AS+**<sup>TM</sup>

+ smart models for more bioenergy & cleaner water

test models > substrate bioconversion  
sensor models > improve process controls  
system models > save energy & water  
bioprocess models > more energy & water

# save & circulate **energy** & **water**

+ broad & deep expertise 49 years worldwide

✓ in 41 countries over 5 continents

Algeria, Argentina, Australia, Bahamas, Bangladesh, Belgium, Cambodia, China, Columbia, Costa Rica, France, Germany, Hungary, India, Indonesia, Iraq, Ireland, Italy, Korea, Laos, Malaysia, Mauritius, Mexico, Netherlands, New Zealand, Nicaragua, Nigeria, Philippines, Portugal, Russia, Serbia, Singapore, Spain, Sri Lanka, Thailand, Tanzania, Turkey, UK, USA, Vietnam.

✓ in 7 sectors and in +200 full scale projects

agri-industry, food & beverages, bio-energy, biotech & pharma, chemical & petro-chemical, metals & textiles, pulp & paper, sewage & landfills.
