THE WINES – our philosophy

Harry's two-decade winemaking journey spans local and international experiences, predominantly shaped during his tenure at Rolf Binder Wines in the Barossa Valley. Mentored by industry luminaries Rolf Binder and Christa Deans, Harry brings a wealth of expertise to Esilio.

Instilling a philosophy of minimal intervention where “less is better” Harry focuses on authentic winemaking, aiming to produce wines that are not only exceptional but also immensely enjoyable.

Esilio's vineyards are purposefully cultivated to match the desired style and flavour profile, all while adhering to responsible resource management. Each vine receives meticulous attention to foster optimal growth, ensuring the preservation of pure, premium flavours.

Esilio's approach blends tradition with a daring touch of the unconventional, seeking diversity, complexity, and an explosion of flavour in every bottle.
