# MidoSan Q Gel

Germes are everywhere! They can get onto hands and items we touch during daily activities and make you sick. Cleaning hands at key times with soap and water or hand sanitizer is one of the most important steps you can take to avoid getting sick and spreading germs to those around you.

## APPLICATION:

MidoSan Q GEL is a quick acting hygienic and surgical hand and skin disinfectant.

Microbiologically tested - kills germs and fungi for 15 seconds. Do not use to disinfect large open area wounds.

- Do not use to disinfect large open area wounds.
- Not for use on the skin around the eyes and for mucous disinfection.
- Do not use in newborns.
- For non-professional and professional use.
- Do not use the product as a medicine!

Intended for use in hospitals, clinics, health centers, nursing homes, social centers, physiotherapy, tattoo parlors, preschool and school educational institutions, sports centers, as well as in residential and public places.

## USAGE:

Hygienic and surgical hand disinfection:

Apply a few drops of gel (about 3-5ml) on the palm of your hand and rub into the skin. Wait until it dries. If there is a risk of hepatitis virus (HVB), extend the exposure time to 2 minutes, then repeat the application procedure. For oily skin disinfection time 5 min.

MidoSan Q GEL meets all requirements for a surgical hand rub and is very potent, with both immediate and sustained efficacy. The high concentration of alcohols (77% v/v) was found to be efficient on resident hand flora enhanced by a combination of quaternary ammonium salts.

## BENEFITS OF USING:

- Quick exposure (15 sec)
- Prolonged exposure for up to 3 hours
- Broad spectrum antiseptic effect
- Excellent skin compatibility

## THE COMPOSITION:

100g of product contains:

Alcohols (ethanol, isopropanol) 70 g (77% [v / v]), Benzalkonium chloride 0.025 g,  
Didecyltrimethylammonium chloride 0.025 g
