# CONTACTLESS STAFF AND ASSET MONITORING

Welcome to Exact Comms, we are the leading provider of contactless staff and asset management solutions.

## WHO WE ARE

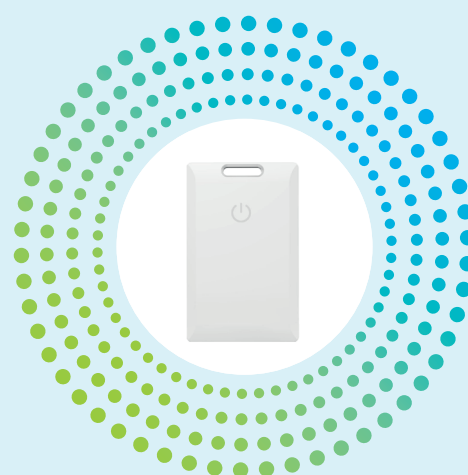

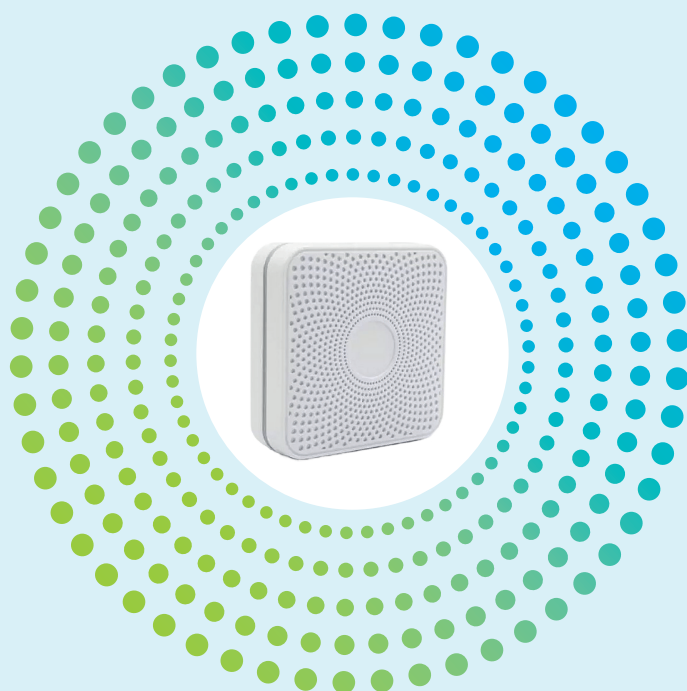

At Exact Comms, we partner with many sectors to enhance operational efficiency and cost-effectiveness. Our advanced systems eliminate human error by meticulously monitoring staff movements throughout your sites. We provide automated alerts for missed checkpoints and measure dwell times to ensure proof of compliance, thereby saving time and resources for our clients.

Our technology also allows for monitoring of assets, asset usage and offers sustainable digital audits that can be accessed on any device.

Additionally, our technology provides an occupancy solution and can alert you when assets are exceeding their allocated time.

Our technology will save you time, increase productivity, increase your data awareness, ensure compliance which saves you money.

We are the experts in real-time tracking and location systems. Established in 2021 we are the global leader in contactless solutions. Our technology is trusted by world-renowned brands such as Savills, CBRE and Bidvest Noonan.

## KEY BENEFITS

- ✓ **INCREASED EFFICIENCY**  
Automate attendance tracking and compliance verification, allowing staff to focus on critical tasks.
- ✓ **ACCURATE DATA**  
Real-time data ensures indisputable records for compliance and operational decisions.
- ✓ **COST SAVINGS**  
Reduce labour costs and administrative workload with automated systems.
- ✓ **SUSTAINABILITY**  
Support digital workspaces and reduce paper use, contributing to environmental goals.
- ✓ **ENVIRONMENTAL**  
Eliminate paper waste with digital check-ins and audits.
- ✓ **SOCIAL**  
Enhance staff safety and reduce cross-contamination risks with contactless technology.
- ✓ **GOVERNANCE**  
Ensure compliance with industry standards and provide accurate, real-time data for informed decision-making.

# OUR SOLUTION: CONTACTLESS TECHNOLOGY

## CONTACTLESS COMPLIANCE

Our system eliminates the need for staff to tap, scan, or sign, thereby reducing human error significantly.

## REAL-TIME MONITORING

Track staff movements and task completions live, enhancing operational efficiency.

## AUTOMATED COMPLIANCE

Automatic alerts ensure tasks are completed to the highest standards without manual intervention.

## USER-FRIENDLY INTERFACE

Our intuitive dashboard simplifies management and reporting. Weekly summary reports for every site show compliance rates compared to the previous week, which areas on a site are checked the most and least, which assets are being used and which staff hit the most and least checkpoints.

# HOW IT WORKS

**1. Beacons**  
Non-mains powered; non-Wi-Fi dependent beacons are placed throughout the site.

**2. Tags**  
Staff and assets are equipped with unique tags that store data until passing a Wi-Fi gateway.

**3. Wi-Fi Gateway**  
Strategically placed gateways collect data from tags and send it to the dashboard.

**4. Dashboard**  
Provides real-time insights, streamlined compliance, and precise attendance tracking.

# HOW EXACT COMMS CAN TRANSFORM YOUR BUSINESS

## CONTACTLESS ATTENDANCE TRACKING

### SOLUTION

Implement Exact Comms; contactless system that uses Bluetooth beacons and tags to automatically record staff attendance.

### BENEFIT

Eliminates human error, ensures accurate and real-time attendance data, and reduces administrative workload.

## AUTOMATED COMPLIANCE MANAGEMENT

### SOLUTION

Utilise Exact Comms; automated compliance features to streamline compliance tracking and reporting.

### BENEFIT

Minimises human error, ensures consistent compliance with regulatory standards, and reduces legal liabilities.

## ENHANCED OPERATIONAL EFFICIENCY

### SOLUTION

Use real-time location tracking and task monitoring to optimise staff deployment and ensure task completion.

### BENEFIT

Increases productivity, reduces operational costs, and improves resource allocation.

## REAL-TIME DATA AND REPORTING

### SOLUTION

Access real-time data through Exact Comms user-friendly dashboard and receive automated reports.

### BENEFIT

Enables quick decision-making, provides valuable insights for continuous improvement, and enhances overall efficiency.

# PROBLEMS EXACT COMMS SOLVE

## MANUAL ATTENDANCE TRACKING

Requiring staff to sign in manually, leading to frequent errors and inaccuracies causing inaccurate attendance data, increased administrative workload, and potential compliance issues.

## COMPLIANCE MANAGEMENT

This is labour-intensive and prone to human error, increasing the risk of non-compliance, legal liabilities, and potential fines.

## OPERATIONAL INEFFICIENCY

Difficulty in optimising staff deployment and tracking task completion which causes inefficient use of resources, higher operational costs, and reduced productivity.

## DATA AND REPORTING PROBLEMS

Causing delayed decision-making which impacts response times to issues causing missed opportunities for improvement and reduced overall efficiency.

## HUMAN ERROR

Manual check-ins often lead to gaps in compliance, increasing the risk of public liability claims.

## DATA INTEGRITY

Traditional systems fail to provide accurate, real-time data, leading to unreliable records.

## SUSTAINABILITY

Paper-based processes and manual tracking contribute to a larger carbon footprint and inefficiencies.

Exact Comms is committed to providing innovative, reliable, and sustainable solutions that redefine staff and asset monitoring standards globally. Join us in creating a safer, more efficient future.

“MONITOR - TRUST - IMPROVE” encapsulates the core functionality and benefits of Exact Comms contactless facility management and time and attendance system. It highlights the system’s capability to provide real-time monitoring, build trust through accurate and reliable data, and drive continuous improvement in operational efficiency and compliance.

## MONITOR

Exact Comms system excels in real-time monitoring of staff and assets. Utilising advanced contactless technology, it tracks the presence and movements of staff members and assets within a facility. This monitoring capability ensures that all compliance tasks are performed accurately and efficiently, reducing the risk of human error. By continuously collecting data, the system provides valuable insights into operational performance, helping organisations maintain high standards of efficiency and compliance.

## TRUST

The accuracy and reliability of Exact Comms data collection build trust among all stakeholders. Clients can trust that their compliance records are accurate and indisputable, which is crucial for defending against potential legal and financial liabilities. The system’s automated alerts and real-time data ensure that any issues are promptly addressed, further reinforcing trust in the system’s ability to manage and safeguard operations effectively. This trust extends to the workforce, as employees know their efforts are being accurately monitored and recorded.

## IMPROVE

Exact Comms system provides the tools necessary for continuous improvement. By analysing the collected data, organisations can identify areas for improvement in their operational processes. The system helps streamline operations, optimise resource allocation, and enhance overall efficiency. The insights gained from real-time monitoring and automated compliance allow organisations to make informed decisions that lead to incremental and significant improvements over time. The ultimate goal is to create a safer, more efficient, and more sustainable working environment.

Exact Comms has strategic partnerships in Mexico, the US, UAE, South Africa, Australia, UK & Ireland, and Portugal, ensuring local support and expertise.

# CASE STUDIES

**Tower Centre Shopping Centre**  
(15 Cleaning & Security Staff & 2 Assets)  
Derry/Londonderry

**CHALLENGE**  
Maintaining consistent cleaning and security standards, particularly during specific periods.

**SOLUTION**  
Implementation of Exact Comms Contactless Compliance and Time & Attendance System for real-time monitoring and data insights.

- RESULTS**
- Identified operational gaps within two weeks.
  - Enhanced staff accountability and awareness.
  - Significant 20%+ improvement in cleanliness and security standards.
  - Increased tenant satisfaction.

**ACHIEVEMENTS**  
The technology elevated operational efficiency and service quality, leading to a notable upgrade in tenant satisfaction.

**TESTIMONIAL**  
“I think to myself could I do without the Exact Comms system and the short answer is no! It’s automatic alerts when standards drop and weekly summary reports save me so much time.”  
  
Hugh Black, Centre manager,  
Tower Shopping Centre

**Kingsbridge Private Hospitals**  
(21 cleaning staff)  
Belfast

**CHALLENGE**  
Ensuring rigorous hygiene standards and operational efficiency.

**SOLUTION**  
Partnership with Exact Comms to implement a contactless facility management compliance and time & attendance system using Bluetooth beacons and rechargeable tags.

- RESULTS**
- Real-time monitoring of cleaning activities and 20% increase in standards.
  - Approval of additional staff based on data insights, improving cleaning quality.
  - Expansion of the system across multiple hospital sites.
  - Plans to leverage data to prevent MRSA and other infectious diseases.

**ACHIEVEMENTS**  
The system enhanced hygiene standards, staff efficiency, and asset tracking, reinforcing the hospital’s commitment to providing a safe and clean environment.

**TESTIMONIAL**  
“It has been an absolute pleasure working with the Exact Comms team from day one. The continuous partnership has yielded remarkable results, showcasing the transformative impact of their contactless solution at Kingsbridge Private Hospitals. The efficiency gains and enhanced hygiene standards achieved through Exact Comms have been instrumental. We are excited about the future as we collaborate on further developments, aiming to solidify G.O.N Cleaning as the premier choice for hospital hygiene on the Island of Ireland. Exact Comms is a true partner in our journey towards excellence.”

Zana O’Neill, MD GON Cleaning,  
Kingsbridge Private Hospitals
