

Creative storytelling and visual design agency, transforming business with interactive & immersive 3D technologies

Stereoscape combines impactful storytelling with captivating 3D visuals and next-gen digital technologies to help you engage your audience in unique and innovative ways.

We work as a full-service partner for forward-looking brands seeking experience-led growth and sustainability benefits.

Have a look at our projects

WHAT WE OFFER

Interactive 3D presentations

Personalised product experiences that resonate with your audience both in digital-first engagement and at trade fairs and events.

Scalable and flexible with 3D product catalogues, product configurators, embedded AR and more.

Online 3D showrooms, tours & spaces

Amaze and delight your customers by transporting them into a simulated or imaginary virtual world for immersive product showcases, interactive events and brand engagement – and reduce your carbon footprint at the same time.

3D animation & video

High-quality photorealistic visuals that help attract customers by showcasing your products from multiple angles in an appealing manner, enhancing communication and understanding.

WHAT'S IN IT FOR YOU

Wow your audience

We unleash the power of 3D visualisation to turn explanations into experiences that evoke emotions and make a lasting impact.

Speed up your sales cycle

We help your prospects gain clarity and confidence with intuitive virtual demos and interactive product tours that enable both online self-research and tailored customer engagement by your salespeople.

Make complex story understandable

Show, don't tell – we help make sense of complex information with captivating storytelling, visuals that bring your products to life, and information organised at progressive levels of detail.

Get more value for your money

We create solutions that capture attention, whilst being scalable and cost-effective. What's more, we recycle your existing CAD assets into content that can be further reused and repurposed.

WHAT OUR CLIENTS SAY

"Impressive, big, massive! VR was a jackpot for our work. We gained about 1,000 additional visitors and contacts because of the VR experience, and the experience enabled three major client discussions that could cover all the costs we put to the event." — Outokumpu, virtual reality tour of stainless steel plant, <u>read more</u>
