Detailed Experiences	**Fin-Tech Digitalization Projects**

Fin-Tech Digitalization Projects

E-Invoice portal (One of the Largest Government Fin-Tech Digitalization Project)
- Fully paperless ecosystem with secure digital transactions processing millions daily.
- Used by over 200,000 company end users and more than 10 ERP solution partners
- Legally mandatory digital invoicing solutions: E-Invoice, E-Archive, E-Waybill, and E-Ledger

E-POS and Physical POS Payment Systems
- E-POS system is used by more than 24,000 pharmacies,
- Physical POS system is used by 7,000 pharmacies.

Payment Systems
- Seamless integration with financial institutions for secure and efficient transactions.
- E-POS Integration with Banks: Enables users to integrate their E-POS systems with banks of their choice for a flexible and customized payment experience.

Human Resources Payroll Payment Record System
- E-Signed Employee Payment Records with Evidence-Based Verification
- Prevents fraudulent overtime claims by ensuring employees verify their working hours.

Smart City Solutions (GIS, IOT and Process Management) for Local Authorities

(Ministry of Environment, Urbanization and Climate Change)

LBS (Location Based Services)
- Manage and optimize service efficiency with GIS-based mapping and workflow automation.
- Bus stops, bus tracking (IOT), Waste tank, disposal centers, waste trucks tracking (IOT)
- Traffic tracking by IP Cameras for internal and citizen usage
- Cemetery Information System (interactive digital map for locating graves & burial plots)
- IOT Integration with maps (weather quality, water quality etc)
- City Guide Portal with Points of Interest (museums, parks, zoo etc on maps), events, news

Local Authority Interface with No-Code Programming for Business Process Management
- User friendly self-service Business Process Design and Implementation
- Citizen data entry and query for declarations and process management

Drone Tracking System
- GIS based Drone tracking and managing system

Marine Waste Application
- All sizes of fisherman boats, ships and vessels have to declare and track their waste
- Leading waste collection ships and land-based disposal areas with workflow management

Loyalty Club Portals

Youth Portal (Ministry of Youth and Sports)
- Government youth interactive portal to communicate directly with youth
- Services including access to youth centers, sports facilities, and educational programs.
- Earn points and redeem them for products and discounts.
- The platform also provides access to sports-related documents and licenses,

My Neighbor Portal (Food Sharing Social Responsibility Program)
- A workflow management system for efficiently coordinating volunteers, ensuring seamless food distribution, task assignments, and real-time tracking of contributions.
- To promote volunteerism and solidarity by redistributing surplus food from dormitories to those in need
