**Famiglia Berta 1842**  
Nizza, Piedmont, Italy  
[www.viniberta.com/en](http://www.viniberta.com/en)

The Berta winery, located on the border of two famous grape growing regions: the Monferrato and Langhe, has been a family run winery for seven generations since its founding in 1842. 10 ha of vineyards are owned and are located within 100m of the cellar. Thanks to the diverse characteristics of the soil, various varieties of grape can be grown: the red Barbera, Dolcetto, Nebbiolo, Brachetto and white Cortese and Moscato. For aging we use steel tanks, as well as French barriques, but some wines are aged in large barrels that have a long history. During work with red wines we use a very delicate filtration. All red wines could be classified as vegan. Since the Nizza DOCG category was recognized, the wines of the winery often participate in competitions and various tastings and have been well recognized by reviewers. The winery is currently run by Paolo Berta along with his wife, Ksenia.
