

ARDO
PROJEKTAI

UAB “Ardo Projektai” Company Overview

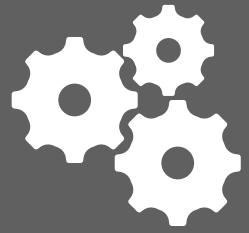

OUR COMPANY

Established in 2017, Ardo Projektai is a rapidly growing metal processing company.

We produce precise mechanical components using CNC milling machines from various plastics and metals according to the customer's designs or samples.

OUR CAPABILITIES

Currently our machine fleet consists of 9 CNC machines.

We are able to produce versatile and complex parts for various industries as we have 3 and 5 axis milling machines.

Our lathes have an active tool that enables the production of complex turned parts.

OUR MACHINERY

Name of equipment	Maximum workpiece dimensions, L x W x H (length x width x height), mm
Milling unit HAAS VF-2SSYT 5th axis	762 x 508 x 508 Ø160
Milling unit HAAS VF-2SSYT 5th axis	762 x 508 x 508 Ø160
Milling unit HAAS UMC-500 5th axis	610 x 406 x 406
Milling unit HAAS VF-1	508 x 406 x 508
Milling unit HAAS-MIKRON VCE 500 4th axis	760 x 400 x 508
Turning unit HAAS ST-20 Active tool	Ø213 x 572
Turning unit HAAS HL-2	Ø200 x 300
Turning unit HAAS SL-10	Ø200 x 406

OUR UNIQUENESS

Our team consists of 16 dedicated and experienced employees who handle complex projects of our customers every day.

We value friendship and trust not only with customers, but more importantly with employees.

As a result, we work smoothly and can constantly provide the highest quality of our work.

OUR CUSTOMERS & INDUSTRIES

Most of our production is made of steel, aluminum, plastic, stainless steel and copper alloys.

We can be versatile and make high precision components for lasers, optomechanical devices, medical equipment, railway equipment, machine tools, and other engineering equipment.
