

Sea the Change

CSR & ESG IMPACT

Protect marine  
ecosystems

Strengthen your  
company's brand  
reputation

Generate real ESG  
impacts

# How we work

4 steps

Assessment

Implementation of  
the project

Communicate &  
Engage

Reporting

Definition of the  
marine CSR  
project best suited  
to your company

Implementation of  
the project with  
positive  
environmental and  
social impacts

Communicate  
your company's  
commitment  
and engage your  
stakeholders

Impact report  
generated in  
accordance with  
ESG objectives

# Areas of application

## Pollution

In collaboration with your company, we reduce marine litter by involving local fishermen

---

## Climate Change

We make your company a key player in supporting the mitigation of climate change at sea

## Biodiversity

With your company and a team of biologists, we support the conservation of marine biodiversity

---

## Engagement

We define the best strategy to involve your company's internal and external stakeholders

Active project:

Poseidon:

The project to protect and increase the biodiversity of the Posidonia oceanica ecosystem

Active project:

Ghost boat:

The project for  
the recovery and  
recycling of  
abandoned boats  
in the Venice  
lagoon

Active project:

Fishing for litter:

the project to involve local fishermen in the collection of marine litter

Don't you find the project that match your needs?

Thanks to our service Sea innovation lab we develop a new project in collaboration with your company

# Complementary services:

## Team building & Corporate retreat

Spread the impact also in Governance, engaging your employees with unforgettable experiences

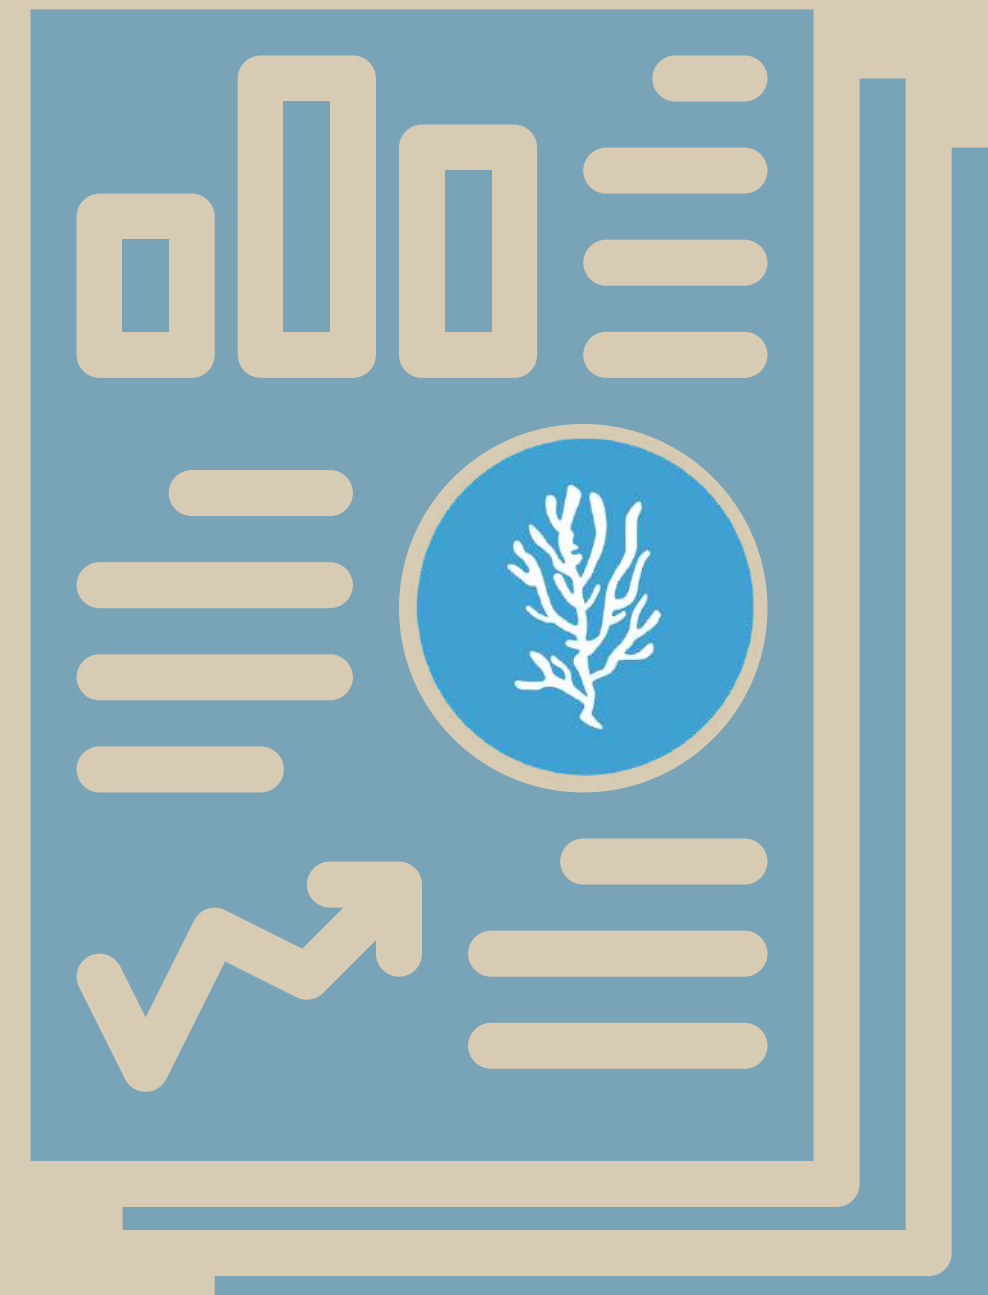

## Strengthen your Brand reputation

- Stakeholder engagement campaigns
- Custom Video of the activity
- Contents creation for social media

# REPORT

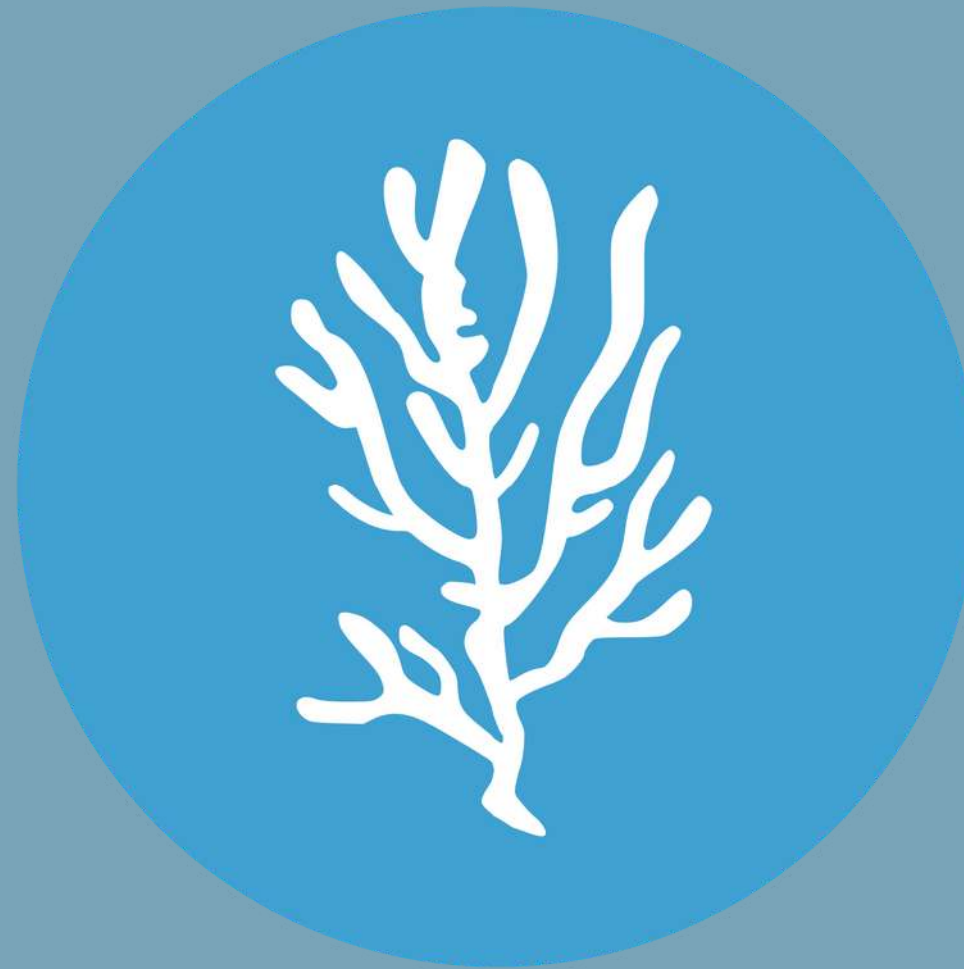

We use reliable and transparent instruments to measure the ESG performance generated by our activities

- GRI standards
- ESRS EU standards from EFRAG defining the rule for CSRD
- Ocean Impact Navigator Methodology
- UN SDGs

# TRANSPARENCE & ACCESSIBILITY

CSR projects are managed on-site by expert and reliable entities, that have operated in the protection of marine ecosystems for several years

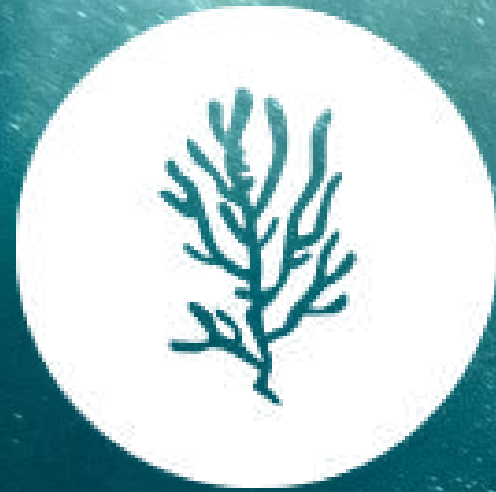

Projects are accessible, we offer your company the opportunity to come discover them and create marketing content

# THE GLOBAL GOALS

support UN sustainable development goals

# Sea the Change

DIVE INTO THE NEXT LEVEL OF SUSTAINABILITY
