Company Profile

Company Name: ESIGN HK HOLDING LIMITED

Product: eSignGlobal

Industry Background:

The global electronic signature (eSignature) market is experiencing rapid growth, driven by digital transformation across sectors and regions. While North America and Asia-Pacific are mature hubs, Southeast Asia and the Middle East have emerged as high-growth frontiers. ESIGN HK is strategically positioned to ride this wave, offering enterprise-grade solutions to bridge regulatory, linguistic, and technological gaps in cross-border contract management.

Product Description:

About eSignGlobal

eSignGlobal is an international eSignature SaaS platform developed by ESIGN, the largest electronic signature service provider in the Asia-Pacific region. Built for global workflows, the platform offers:

- eSignatures
- Real-name identity verification
- SMS-based authentication

With over 1 million enterprise users across 70+ countries, eSignGlobal is trusted by businesses ranging from SMEs to multinational corporations.

Core Capabilities

1. Compliance-First Architecture

- Fully aligned with global and local laws: eIDAS (EU), E-SIGN Act (US), ETA (Southeast Asia), GDPR, PDPA.
- Bilingual templates, real-name authentication, and blockchain timestamping ensure legal enforceability.

2. Full-Stack Contracting Platform

- End-to-end workflow from identity verification → contract drafting → digital signature → secure archiving.
- API integrations with over 150+ CRM platforms including Salesforce, SAP, and Oracle.

Proprietary AI Features

- **AI Real-time Translation:** Supports 40+ languages to accelerate cross-border negotiations.
- **Risk Scanner:** Flags legal risks in 70+ jurisdictions with 93%+ accuracy.
- **Speed Reading Engine:** Extracts key clauses in under 5 seconds.
- **Smart Clause Comparison:** Pinpoint changes across multilingual versions—5x faster than manual review.
- **Contract Drafting Assistant:** Uses 100+ legal templates to generate compliant drafts within 3 minutes.

Four Strategic Advantages:

1. Zero Compliance Risk, Global Trust

- Compliant with **China's cybersecurity and data sovereignty laws**, while meeting international standards (GDPR, CCPA).
- Blockchain audit trails, CN/EN contract templates, and biometric safeguards ensure enforceability across jurisdictions.

2. Seamless Onboarding, 24/7 Global Support

- Data centers in **Singapore, Hong Kong, Mainland China, and Europe** ensure low-latency operations and full uptime.
- Dedicated migration and onboarding support for enterprise users.

3. Cost-Effective Global Rollout

- 40% lower cost than traditional providers via **localized infrastructure** and **multi-currency billing**.
- Supports multi-time zone workflows and enterprise-grade API integrations.

4. Industry-Leading AI Contract Management

- Automates drafting, redlining, translation, and filing—saving time while reducing legal and compliance risks.
- Especially valuable for **cross-border trade, legal, financial, and supply chain industries**.

International Standards & Certifications

eSignGlobal is certified with:

- **ISO/IEC 27001** (Information Security Management)
- **ISO/IEC 27018** (Cloud Privacy)
- **ISO/IEC 27701** (Privacy Information Management)
- Compliance with **AATL, eIDAS, WebTrust** and other global e-signature frameworks

This enhances global credibility and ensures market readiness for enterprises worldwide.

 ***We are ready to power the next generation of global digital contracting—securely, intelligently, and compliantly.***
