SCALE YOUR CONSULTING BUSINESS WITHOUT ADDING MORE HOURS

AnalyzeWare is built for consultants who want to maximize their impact in less time. Bring your entire consulting workflow onto one seamless platform and focus on what really matters: delivering insights.

REAL-TIME COLLABORATION

Add team members and clients, capture live data, and intervene in analyses instantly. What used to take days is now done in minutes.

AI-POWERED ANALYSES

Run essential tools like SWOT, PEST, and Competitive Analysis with AI assistance, turning hours of manual work into quick, smart insights.

WHITE-LABEL REPORTING

Export polished, client-ready reports in one click—always branded with your identity.

CLIENT & PROJECT MANAGEMENT

Track progress, oversee every company you advise, and manage all engagements from a single dashboard.

AUTOMATION & REMINDERS

Schedule recurring reports and set smart reminders so you never miss a review.

With AnalyzeWare, consultants move beyond spreadsheets and static slide decks, transforming every engagement into a scalable, data-driven service. It's not just about saving time—it's about unlocking new capacity to serve more clients, deliver deeper insights, and grow your consulting business without adding more hours to your schedule.
