- An award-winning, 20-year track record of quality, British made engineering and innovation
- Global supply, supported by a worldwide network of trusted distributors
- Industry-leading after sales care and technical assistance

INCINER8 WAS ESTABLISHED IN
SOUTHPORT, LANCASHIRE

2003

WITHIN JUST THREE YEARS WE
WERE ALREADY EXPORTING
INCINERATORS TO 35 COUNTRIES

2006

GOVERNMENTS, NGOS AND
MILITARY CUSTOMERS STARTED
COMING TO US FOR RAPID
DEPLOYMENT OF INCINERATORS
AROUND THE WORLD

2008

Innovation in incineration

In less than 20 years, Inciner8 has become a global leader in incineration, supplying incinerators across a diverse range of customers and applications in more than 180 countries worldwide.

If our off the shelf incinerators do not meet your specific requirements, we offer a bespoke design service that enables us to tailor-make a solution that suits your needs exactly.

WE ACQUIRED AN ENGINEERING COMPANY TO ENABLE US TO DRIVE INNOVATIVE PRODUCT DEVELOPMENT. INCINER8 RECEIVED FIRST QUEEN'S AWARD FOR EXPORT

2012

WE SUPPORTED THE NGOS DEALING WITH THE EBOLA OUTBREAK, ENSURING OUR INCINERATORS WERE ON THEIR WAY TO HELP COPE WITH THE CRISIS

2015

WE RECEIVED TWO FURTHER QUEEN'S AWARDS, ONE FOR EXPORT AND THE OTHER FOR INNOVATION, MAKING US ONE OF JUST A HANDFUL OF COMPANIES TO HAVE EVER ACHIEVED TWO QUEEN'S AWARDS WITHIN A SINGLE YEAR

2016

WE LAUNCHED INNOVATIVE NEW PRODUCTS, INCLUDING SOLAR INCINERATORS AND A NEW RANGE OF MEDICAL INCINERATORS

2017

INCINER8 WAS ACQUIRED BY CHILTERN CAPITAL, PROVIDING A CATALYST FOR FURTHER GROWTH AND INNOVATION

2021

WE HAVE A NEW CEO, DARREN SPENCER APPOINTED IN 2023 AND WE ARE LEADING THE WAY IN SUSTAINABLE WASTE MANAGEMENT SOLUTIONS.

2024

Innovation in incineration

We are pioneers.

In less than 20 years, Inciner8 has become a global leader in incineration, supplying incinerators across a diverse range of customers and applications in more than 170 countries worldwide.

Made in Britain, deployed around the world

We are proud to offer a range of incinerators designed, engineered and manufactured in Britain for the global marketplace. Technical excellence is in our DNA, which means you can rely on us for solutions that respond to your specific requirements while delivering on your environmental goals.

A triple Queen's Award-winning company with a staff of around 46, a global network of distributors and a £7 million turnover, we can provide a full turnkey solution for any incineration requirement; large or small, including applications that require an incinerator for a small footprint, limited emissions, infection control or waste to energy.

And because we have our own team of skilled design engineers, we can also offer bespoke solutions to answer project-specific criteria, no matter how complex.

Delivering value beyond our commercial success

We are a company with purpose, delivering solutions that help to provide an emergency response in times of crisis to reduce risk, prevent the spread of disease, and minimise environmental impact.

Governments, NGOs, charities and humanitarian organisations turn to us to help them respond quickly to aid people, places and communities. From assisting with efforts to prevent infection risk during outbreaks of contagious diseases such as Ebola, through to disposing of narcotics seized from drug cartels, we play a vital role in protecting people. Meanwhile, the solutions we provide to island communities and our commitment to helping tackle the challenge of ocean plastics is helping to protect the environment too.

CAPABILITY STATEMENT

Fit to purpose technology for waste management in remote areas and harsh conditions with limited locally available resources.

CORE COMPETENCIES

- 
- ▶ Delivering full turnkey incineration systems
 - ▶ Stationary, mobile and temporary set-up systems
 - ▶ Remote control and operating systems
 - ▶ Advanced technology and clean air solutions
 - ▶ An award-winning, 20-year track record of quality, British made engineering and innovation
 - ▶ Industry-leading after sales care and technical assistance
 - ▶ Global supply, supported by a worldwide network of trusted distributors
 - ▶ Medical, agricultural, camp, hazardous and residential waste solutions
 - ▶ Diverse range of customers and applications in more than 170 countries worldwide

PAST PERFORMANCE

-  Supplied solutions for Harsh environment usage like Mount Everest, Antarctica, Artic Circle, Pacific Islands, Bolivia, and many desert and tropical locations.
-  Supplied solutions for mining camps in remote locations like Papua New Guinea, South Africa, Greenland and Tanzania
-  Preferred supplier for medical waste incineration systems during Ebola outbreak with many installations in West Africa
-  Designed and supplied solution for cyanide contaminated waste in Papua New Guinea
-  Large number of supplied solutions for projects (direct or through agents) of UN, WHO, Red Cross, Europe Aid, US Aid, Development banks, Governments, Military organizations, Aid organizations and NGO's on all continents
-  Developed and supplied waste incineration solutions with energy recovery for UNDOF missions
-  Provided donations in equipment for areas affected by disasters (epidemics, floods, earthquakes and refugee crises)

We are here to help!

What sets INCINER8 apart is our commitment to innovation, rich experience, customer-focused approach and our track record of success.

- Based on all previous success, knowledge skills and expertise, we decided to step forward, revise and improve our whole product range and design new products that will meet customers expectations in full.
- New technical team, made of experienced engineers and scientist are appointed for purpose of developing new and improving existing solutions in order to meet most specific customer requirements.
- INCINER8 is offering a bespoke design service where most of the specific operational challenges can be prevented with our tailor-made solutions.
- We are introducing new ways to support customers in remote locations, organise trainings and educational courses to make sure equipment is used in most effective way with special accent on quick response, ease-of-use, safety and bio-security.

CHRIS BALMER, COMMERCIAL DIRECTOR, INCINER8

Chris Balmer is a highly successful director with over 15 years of experience in senior roles within the B2B industries. Chris' key skills span marketing, communication, technical, and presentation skills. His career has seen him thrive as a Managing Partner, demonstrating a strong history of working in the Automotive, Composite and other manufacturing industries. Chris is a strong business development professional, skilled in negotiation, sales strategy, value selling, people management, and account management. He is an invaluable addition to our team, poised to drive our growth and innovation.

Few words from Chris.

NIKOLA VUJEC, BUSINESS DEVELOPMENT MANAGER, INCINER8

With 18 years of experience in the waste incineration industry, I have played a key role in introducing waste incineration technology to numerous locations around the world. As Business Development Manager at Inciner8, a leading manufacturer of waste incinerators, I am dedicated to promoting sustainable waste management solutions that reduce environmental impact and support global sustainability goals.

Throughout my career, I have been involved in multiple projects that have successfully implemented waste incineration technology in various regions, demonstrating my expertise in project development, stakeholder engagement, and strategic partnerships.
