

FROM THE VINE TO THE GLASS...

BORDEAUX | ENTRE-DEUX-MERS

VIGNOBLES DULON

FOR TEN GENERATIONS

A FAMILY HISTORY...

The DULON family have been winemakers from father to son for more than 250 years. Michel Dulon developed the estate with his wife, Françoise, which currently manages 150 hectares.

Since 2012 their two daughters Sophie and Carole have gradually taken up the torch, forming a duo modelled on the history of the Dulon family.

Situated on the right bank of the Garonne, in Gironde, and stretching over the Entre-Deux-Mers area, most of the vineyards overlook the river. It is ideally placed, with perfect terroir and climate, giving rich and generous grapes. This type of soil, primarily clayey limestone, retains water and warms up quickly. It is very fertile and malleable to work with. This results in balanced heat and water intake for the vines, a balance that is reflected in our wines.

Since 2019, the estate is certified High Environmental Value (HEV).

ENTRE-DEUX-MERS VEGAN

55% Sauvignon gris
25% Sauvignon blanc
20% Sémillon

Notes of citrus fruit and litchi on the nose. The mouth is bold with a nice body, giving a lively and supple wine. This wine is Vegan certified.

ENTRE-DEUX-MERS

45% Sauvignon blanc
30% Sémillon
25% Sauvignon gris

All the freshness one can expect of an Entre-deux-mers, with notes of white flowers and citrus fruit on the nose. On the palate it is delicate and slightly acid.

BORDEAUX BLANC

60% Sémillon
40% Sauvignon blanc

This blend of Sémillon and Sauvignon blanc reveals a lovely light and bright yellow colour with a very aromatic nose. On the palate it is well balanced between the freshness of Sauvignon blanc and the fullness of Sémillon. The aftertaste is long on the palate.

BORDEAUX ROUGE

60% Merlot
35% Cabernet sauvignon
5% Cabernet franc

It is a supple and fruity wine with round and discreet tannins. A ruby colour and red fruit aromas on the nose.

BORDEAUX ROSÉ

95% Cabernet sauvignon
5% Merlot

This Bordeaux Rosé, with Cabernet Sauvignon dominance, is fresh and vivid, with white-fleshed fruits and citrus aromas.

VIN DE FRANCE ROSÉ

95% Cabernet sauvignon
5% Merlot

This elegant rosé, with Cabernet Sauvignon dominance, will seduce you by its freshness and liveliness. It developed white-fleshed fruits and citrus aromas.

BORDEAUX ROUGE VEGAN

50% Merlot
50% Cabernet Sauvignon

This blend of Merlot and Cabernet Sauvignon reveals a lovely ruby red colour. The nose is intense, with notes of fresh fruits, raspberry, and cherry. It is soft and silky on the palate, with a long finish.

BORDEAUX SUPÉRIEUR

50% Cabernet Sauvignon
45% Merlot
5% Malbec

Its ruby red colour reveals a delicate nose with notes of red berries and at times blackberries. Round and delicate on the palate. With a subtle blend of red berries and vanilla notes. Ideal with cooked meats, mushrooms, game.

CUVÉE GJ

50% Merlot
50% Cabernet Sauvignon

GJ is a complex and pleasant wine, with a lovely garnet colour. The nose is intense. It has a splendid aromatic of toast and coffee, with minty notes. It is silky on the palate, with long-lasting aromas, proof of good cellaring potential.

CRÉMANT DE BORDEAUX

85% Sémillon
15% Sauvignon Gris

Le Pur Grand Jean is a sparkling Crémant de Bordeaux wine with exotic fruit aromas, with a lively and fleshy mouth. The bubble is fine and pleasant.

CADILLAC CÔTES DE BORDEAUX

60% Merlot,
30% Cabernet Sauvignon
10% Malbec.

The nose of this dark red Cadillac Côtes de Bordeaux reveals notes of black fruit and vanilla. On the palate its finish is full-bodied, smooth and spicy. The aftertaste is long and intense. Ideal with red meat and game like venison or boar.

VIGNOBLES DULON

In 2019, Vignobles Dulon obtained the High Environmental Value (HEV) certification, regulated by the Ministry of Agriculture.

The environmental certification is a voluntary approach which aims to identify and promote particularly environmentally friendly practices applied by farmers and wine-growers.

The highest, level 3, guarantees the environmental performance of the winegrower, its high level of biodiversity conservation, managed fertiliser use, plant protection strategy and water resource management.
