

Repair & Refurbishment Solar and Wind Power Electronics

About us

Convesys is a European engineering company specialized in power electronics, energy management systems (EMS/SCADA), and lifecycle services for renewable energy assets

Our value

We support utilities, EPCs, and technology partners in improving reliability, extending equipment lifetime, and reducing carbon impact, through a combination of digital energy management and hands-on engineering expertise.

What we offer

- ✓ Repair & refurbishment of solar and wind power electronics
- ✓ Replacement modules and reengineering
- ✓ EMS / SCADA for renewable and hybrid power plants
- ✓ Utility-scale power electronics for solar and wind

Focus areas

- ✓ Solar PV • Wind
- ✓ Hybrid systems (PV + storage + grid)
- ✓ Lifecycle services

Convesys Ltd.

Engineering • Optimization • Lifecycle Services
