Others	QP Declaration and QP Release QP Consulting	

QP declaration and QP release service

- TK can provide consulting service from pre-period until to the end of protocol.
- Batch certification of IMPs for use at any sites within a state, following authorization by EU member state to proceed.
- Providing QP Release Certification as well as re-issuance of QP Release Certification during trial as further countries are approved.

Chris Ellis

Head of Business Development

Our Team Experience

At least **12 years** related industry experience

More than **50%** have advanced degrees

2/3 have a degree in pharmacy or biology

60% have worked for Global CDMO's

Business Snapshot

				
12,000+ Shipments	400+ Projects	150+ Clients	100+ Global Projects	1,000+ International Shipments

Integrated Clinical Packaging Solution

One stop services

Packaging design

- QA oversight during production
- QA Review of Documents
- Electric Batch Record

Label design

- Create label specs to match the container we are labeling
- Create label text that is approved by the CRO, Sponsor and Regulatory

Label and Assemble

- Label printing
- Applying clinical labels
- Assembling Kits

QA Release

- Design secondary packaging to match clinical protocol
- Design Kit to match how the product will be dispensed to the patient

Storage and Distribution

- Storing supplies at proper temperature ranges
- Shipping to Clinical Sites

Returns and Destruction

- Reconciling Returned Goods
- Destroying Goods upon approval

Global ERP System - VPS

In house developed for global clinical supply management

- Item creation
- Production planning and execution
- Inventory Management
- Global quotation & invoicing

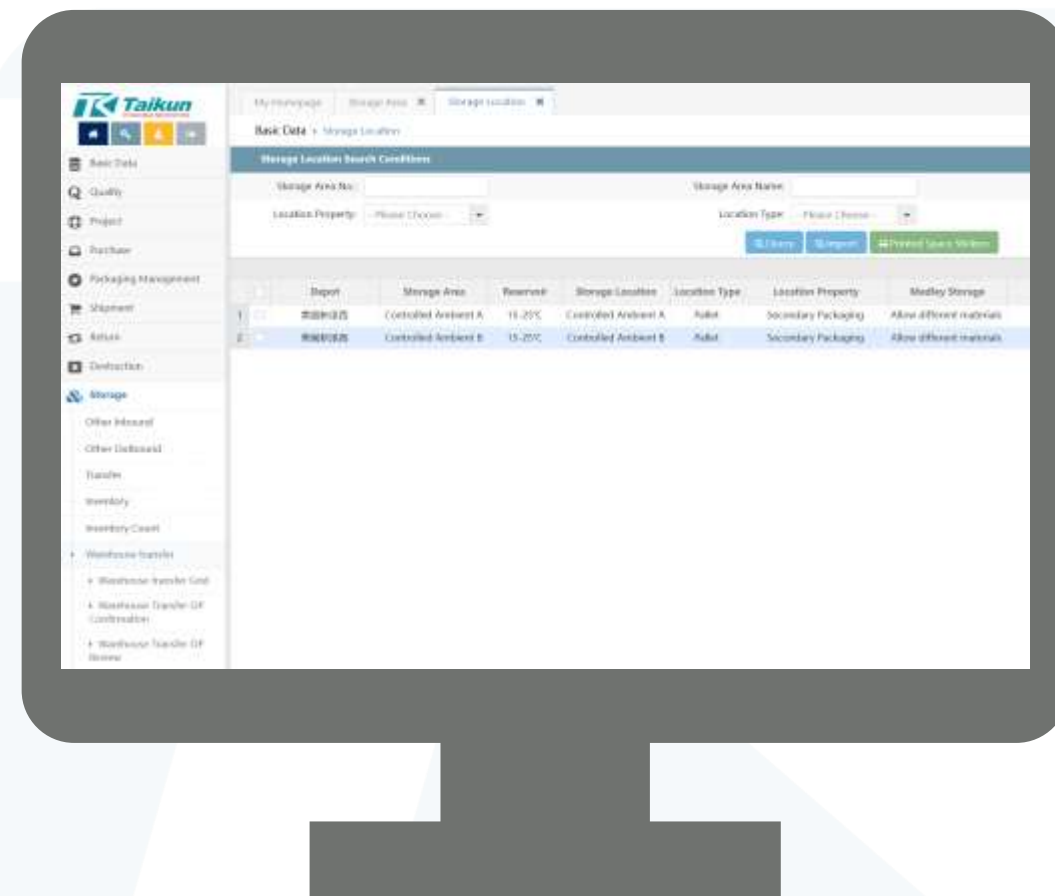

- Great Visibility & Control
- Improved GxP Compliance

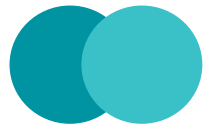

- Unified real time view
- Client interface

Smart integration with IRT/RTSM System

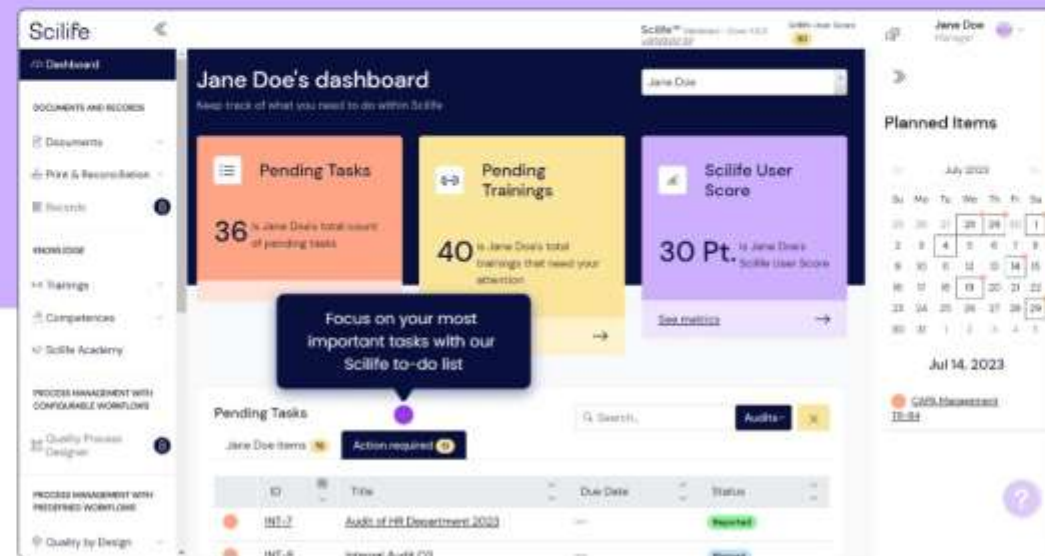

Global eQMS- Quality Management System

Scilife

Bring clarity to your QMS

Eliminate **80%** of complex quality assurance tasks and turn quality into your brightest asset. Infuse integrity, clarity, and compliance into your workflows with Scilife.

The screenshot displays the Scilife dashboard for a user named Jane Doe. The dashboard is organized into several key sections:

- Pending Tasks:** A red card showing 36 pending tasks, with a note that this is Jane Doe's total count.
- Pending Trainings:** A yellow card showing 40 pending trainings, also noted as Jane Doe's total count.
- Scilife User Score:** A purple card showing a score of 30 points, with a note that this is Jane Doe's score.
- Planned Items:** A calendar view for July 2023, showing a planned item on July 14, 2023.
- Pending Tasks List:** A table below the dashboard showing a list of tasks. One task is highlighted with a callout: "Focus on your most important tasks with our Scilife to-do list".

ID	Title	Due Date	Status
INT-2	Audit of HR Department 2023		Completed
INT-5	Internal Audit Q3		Worked

Import and Export Footprint

IMP Import & Export

There's an increasing demand from biotech companies to conduct clinical trials and launch their breakthrough therapies in global markets. Prominent destination countries and regions include US, Canada, Europe, Australia and China, etc..

With our 15 own and partner depots and offices spanning across above areas, we are well positioned to support clients navigate logistical and regulatory challenges when exporting clinical materials overseas. We offer services that include:

- International logistics management and optimization;
- Export Customs Clearance; and
- Import Customs Clearance (Importer of Record, IOR).

We assist clients in preparing documentation tailored to each specific project, for both export and import customs clearance. This customized support ensures the movement of clinical materials that satisfy clients' timelines and comply with local regulatory requirements.

Clinical Support Services- comparator Sourcing

Services

Taikun Pharma local and global comparator sourcing services provide you access to a global sourcing network and an overall de-risked supply chain.

Features & Advantages

We have established relationships direct with branded manufacturers and an authorized global wholesale network offering you access to your drug needs and deliver cost savings.

Why Choose Taikun?

FLEXIBILITY

- Open Capacity
- Quick delivery, i.e., 4-week packaging timeline

PERSONALISED SERVICES

- Proactive Communication
- Consultant Style Approach

PROJECT EXPERTISE

- 400+ Projects managed by the team
- Professional background covering Pharma, CDMO, Packaging

GLOBAL DEPOT NETWORK

- Taikun owned depots in USA, Belgium, China, Australia
GxP compliant, fully controlled

COSTS

- Competitive pricing
- Quick Quotation

ozoneone

I RTSM Partner

- OZONE ONE is our integrated Interactive Response Technology (IRT) that delivers innovative solutions to your clinical trials.
- OZONE ONE reliably solves complex challenges in clinical supply management and simplifies studies with trial supply forecasting, end-to-end end traceability, and seamless integration.

I Our Advantages

Experienced Team

A dedicated and experienced team, providing 24/7 technical support services as well as consultative expertise, share the common goal with sponsors to meet key milestones pertaining to timeline and budget.

Platform-level Solution Provider

OZONE ONE creates a responsive end-to-end process that ensures alignment between the physical and digital connection of drug management. We aim to streamline your studies from start-up to completion with seamless efficiency.

Quality as the Core

OZONE ONE is configured to reduce the risk of unblinding, randomization imbalance, and mis-dispensing in an effort to increase protocol compliance and maintain high data quality and integrity.

Thank You
