and the Republic of Türkiye

**ICTürkiye2025**  
10 April, İstanbul

PRESENTER FULL NAME: Mahmoud Elfiky

ORGANIZATION: Faculty of Medicine, Cairo University

WORKSHOP NAME: ICTürkiye2025 International Brokerage Event

E-MAIL: [mfiky@kasralainy.edu.eg](mailto:mfiky@kasralainy.edu.eg)

## Description of the Organisation

Cairo University boasts a legacy of alumni worldwide, now graduating thousands of students every year that are recognized internationally.

The university has a track record of International projects with various U.S., European and Asian countries that have continued for decades now and fueled the Egyptian economy.

Faculty of Medicine at Cairo University is ranking first in Egypt in Clinical research. It boasts thousands of Staff and Students eager to work in research projects.

## Your Teams' Expertise

Over 6500 Faculty with highest Research publications in Egypt in research, clinical care, digital health and medical education reform.

Faculty is tertiary center in Cairo  
With over 1.5 million outpatient  
Visits annually, ranging all diseases

## Your Research Fields

Global Health  
Global Surgery  
Infectious diseases  
Simulation Research  
AI applications in Healthcare

Egypt is part of Horizon Europe  
UN SDG targeted research

6500+ Staff  
1.5 million annual patients  
31000+ Scholarly output  
13000+ International Collaboration  
4600+ Patent Citations

46% International Collaborations  
1.5% Academic – Industry Collaborations  
62% Publications in Q1 and Q2  
9.4% Publications in top 10% most cited

## Your On-going Projects

The presenter already has applied and received funding for the following projects in the last year:

1. Enhancement and reform of Medical Education in Egypt - British Council UK – Egypt Trans-National Education (TNE) Grant

4. **Over 40 International projects with various institutions for the Faculty of Medicine**

## Project Idea

**Call Topic: HORIZON-HLTH-2025-01-CARE-01: End user-driven application of Generative Artificial Intelligence models in healthcare (GenAI4EU)**

**Deadline Dates:**

- ☐ **Objectives:** Enable the development of new and improved methodologies and models for a comprehensive assessment of outpatient clinics in high volume centers
- ☐ **Expected Results:** Creating user- centric, robust and trustworthy solutions based on Artificial Intelligence (AI) models to support the provision of safer, more efficient and personalised outpatient care

## Project Idea

**Call Topic: HORIZON-HLTH-2025-01-IND-03: Facilitating the conduct of multinational clinical studies of orphan devices and/or of highly innovative (“breakthrough”) devices**

**Deadline Dates:**

- ☐ **Objectives:** Creating multinational clinical studies of orphan devices and/or of highly innovative (“breakthrough”) devices, including digital and Artificial Intelligence (AI) based tools and techniques.
- ☐ **Expected Results:** Promoting R&D and translational research through testing and implementing MVPs/prototypes in different settings and patient scenarios.

**Consortium - profile of known partners (if any)**

No	Partner Name	Type	Country	Role in the Project
01	University of Greisfeld	University	Germany	Implementation Partner
02	German International University	University	Germany/Egypt	Technical Support
03				
04				
05				

**Consortium – required partners**

No	Expertise	Type	Country	Role in the project
01	Digital Solutions			
02	Data Science			
03	Site implementation			
04
