

Street Art Meets Brands

Transform static murals into immersive, interactive stories.

Artivive is a **no-code, AI-powered augmented reality (AR) platform** that brings street art to life with motion, sound, and multimedia layers. **In minutes**, you can transform any wall, mural, or public space into a **dynamic digital experience**, no coding required.

Used in **150+ brands across 192 countries** (including **WWF, Hard Rock Cafe, Desigual** and many more).

- From Murals to Multimedia
 - Artivive transforms **static street art** into **living brand stories**. Add motion, sound, voice, or gamified layers — all activated by a smartphone.

- Bridge Culture and Commerce
 - Collaborate with street artists to co-create **immersive campaigns**. Whether for sneakers, soda cans, festivals, or fashion drops — **your brand becomes part of the urban fabric**.

- No Code. High Impact.
 - With Artivive’s **intuitive platform**, artists and brands can launch **AR-powered content in minutes** — no tech skills required.

- Designed to Be Shared
 - AR murals and installations create **social media-ready moments**. Audiences scan, engage, and amplify your message organically.

Collaboration Ideas

- AR-Enhanced Brand Murals
- Product Launches & Packaging
- Event & Festival Activations
- Cause-Driven Campaigns

Why Use AR for Brand x Street Art Collabs?

- ✓ Authentic Cultural Integration
- ✓ Interactive Consumer Experiences
