

Kauno Grūdai

Kauno Grūdai (former KG Group) is a part of Akola Group, one of the largest agricultural and food production companies in the Baltic region, operating through the whole production chain from field to table.

Kauno Grūdai (former KG Group) activity is divided into grain and poultry sectors. These sectors develop separate integrated businesses that supplement each other and collectively form the farm-to-table production chain. This chain ensures the traceability and control of every manufacturing process, which helps us guarantee the high quality of our products and services.
