

## SolarAce PV

### Business Description

 **Design and development of the emergency PV generators for private and business owners.** Our generators are powerful but not requires the football fields to supply enough energy for the life even in the shut down or black out cases. Thanks, to the ASPS technology.

### Why Us

- **Efficient Technology:** Spatial power density is up to twice higher than competitors.
- **Compact & Lightweight:** Easy deployment in limited spaces.
- **Reliable & Sustainable:** Consistent, eco-friendly off-grid power.
- **Proven Performance:** Overcomes existing solar solution limitations.

Choose us for a superior solar power solution.

### Mission

- To bring our revolutionary Solar Active Generator to market and achieve widespread adoption

### Achievements

- Provide 2x spatial power density vs. competitors
- Up to 8 peak-hours per day
- Enables high independence for electrical devices

### Industry

**Clean energy**

### Status and Roadmap

- POC
- IP
- Developing a prototype
- Testing & validation
- Securing funding
- Manufacturing, marketing and sales

### Product / Services

- Solar Active Generator:
  - As product
  - As part of system

### Our Expertise

- Small and medium electric power generation systems
- Electro-mechanical engineering
- Economic justification and support
