

The institutional equity-intelligence layer for Hong Kong.

Central Donald turns hard-to-read public market evidence into fast, auditable decision support for institutions, and into compelling engagement products for their clients.

01. BROKERAGE & WEALTH

Turn intelligence into client relevance.

Pain: Commoditized execution, research cost pressure, and attention leaking to internet brokers.

Outcome: Add co-branded, evidence-backed briefs to digital and RM workflows — new reasons for clients to open, ask and engage.

02. ASSET MANAGEMENT

Scale coverage without diluting accountability.

Pain: Fragmented HKEX / CCASS data, coverage bottlenecks, and opaque market regimes.

Outcome: Compress any Hong Kong ticker into an anchored evidence stack for analyst triage, portfolio review and committee discussion.

03. TREASURY, IR & MARKET ENTRY

Read market perception before the meeting.

Pain: Fragmented peer, ownership, liquidity and risk context when Hong Kong capital-market questions reach the board.

Outcome: Prepare board and investor conversations with transparent reads of market regime, custody shifts, shorts, buy-backs and peers.

THE ARCHITECTURE OF CONVICTION

Raw Evidence

- Prices & HKEX Filings
- CCASS Ownership
- Shorts, Insiders, Buy-backs
- Prospectus & IPO Data

The Donald Engine

- Regime & Quant Models
- Evidence Confidence
- Scored Ranges & Outcomes
- Structured IPO Diligence

Deployable Intelligence

- WeChat Quant Cards
- RM & Analyst Briefs
- Co-brand / White-label
- API & Embedded Workflows

INSTANT PILOT

Experience the intelligence layer.

- 1 Scan the WeChat Official Account QR code.
- 2 Follow the account to access the trial.
- 3 Send any Hong Kong ticker (e.g., 1810) to receive an instant brief.

LET'S MEET

Book a focused 15-minute partner conversation at the Summit.

THE PROOF

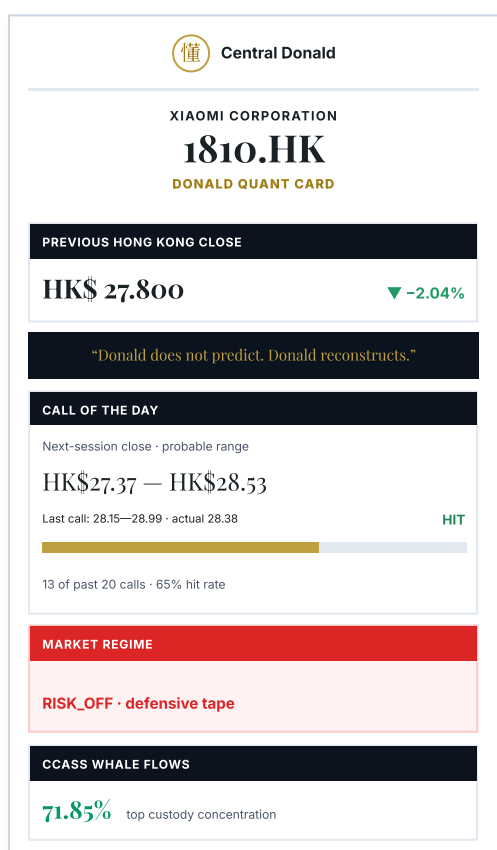

A public, self-grading track record.

Xiaomi: a transparent four-month signal-following tear sheet.

17 APR — 17 AUG 2026
88 SESSIONS

A compact, dated tear sheet from the production outcome ledger. A market comparison, not a promise.

Xiaomi 1810.HK

THE PRODUCT

One compact card. One evidence trail.

Each card combines a settled price anchor, testable next-close range, market regime and traceable evidence stack — readable in seconds.

FOR PARTNERS

Create a repeatable reason for clients to open, ask and engage — without replacing your brand, execution stack or RM relationship.

A LOW-FRICTION PARTNERSHIP

Start with one workflow. Prove value. Expand with evidence.

- | | | |
|--|--|---|
| 01 Frame one use case
Client engagement, analyst triage, or Hong Kong market monitoring for treasury / IR. | 02 Choose delivery
WeChat trial, co-branded brief, white-label module, or an API integration path. | 03 Agree success measures
Repeat requests, research time saved, RM / analyst adoption, and meeting quality. |
|--|--|---|

You retain the brand, client relationship, investment process and licensed execution. Central Donald supplies the Hong Kong intelligence layer.
