

PRODUCTS / CAD/CAM/CAE/PLM/IoT/AR software:

- **ANSYS** (since 1991): Structural Mechanics (implicit and explicit), CFD, Electromagnetics (LF and HF), Electronics Thermal, System Simulation, Digital Twin, FuSa/Cybersec, Embedded
- **PTC** (since 1992): Creo (CAD /CAM /CAE), Mathcad, Windchill (PLM), Arbortext (technical illustrator), ThingWorks (IoT), Vuforia (AR)
- **Moldex3D** (since 2009): plastic injection simulation
- **Vericut** (since 2007): CNC simulation
- **NCGCAM** (since 2009): CAM for HSM
- **MAGMASoft** (since 1994): casting simulation
- **Bentley** (since 2008): Infrastructure CAD, Structural, Civil, Architectural, Plant, Modeling & Analysis for Water/ Wastewater/Stormwater, GIS, Reality Modeling, Data Processing, Asset Extraction, Offshore Design & Simulation, and more

SERVICES

- **Consulting** (CAD/CAM/CAE)
- **Research, Technical Support, Training**

WHO WE ARE

Founded in 1991 within the aviation industry, INAS stands as a premier provider of top-tier CAD/CAM/CAE/PLM/IoT/AR software solutions, alongside comprehensive training, technical support, and consulting services. Our reputation extends beyond borders, positioning us as a leading technical hub in Romania and the international stage, spanning diverse industries from automotive and heavy equipment to nuclear and defense. Our founding principles revolve around collaboration, establishing mutually beneficial partnerships with our clients, with innovation and technical excellence at our core. This foundation empowers INAS to offer high-value solutions and services. As trusted advisors, we assist our clients in enhancing product efficiency, reliability, and performance through engineering software. Our unwavering mission: not just to serve our customers well, but exceptionally.
