

Executive Summary

Powerful performance. Future-oriented.

STAHLWILLE stands for an impressive success story that unites tradition and innovation in a unique way. For 160 years, as a medium-sized company, we have always had our customers' needs in mind and developed the best solutions of our time. This is how we have developed from a tool manufacturer nestled in the mountains, to an international innovation champion in the field of hand-held tools.

As a full-range tool supplier, we offer everything professional users need in almost every field of application and industry. From classic spanners to modern tool storage and transport solutions, from high-tech electronic torque tools for connected Industry 4.0 environments to testing and calibration technology that is state-of-the-art in every respect.

With our contemporary and forward-looking portfolio, we support our customers in delivering outstanding work. Precise, fast and safe. In production, repair and maintenance. Every single day. All over the world.

We place high demands on ourselves: Our professional tools for trades and industry stand for quality that sets standards and impress with ergonomics and durability that leave nothing to be desired. This is possible because almost all of our value creation takes place "in-house": 95% production depth and a clear commitment to our German location leave no doubt that we will live up to what the "Made in Germany" quality seal promises.

Tools that inspire!
