

**KAZANCI**  
ENVIRONMENTAL

Since our first day, we carry the vision of increasing the profitability of our stakeholders and generating innovative solutions through our engineering commitment services.

With our sustainable and environmentally friendly practices, we contribute not only to the business world but also to our planet.

**Share the value we create**

We are at your service with our team  
of over 35 experts and our  
increasing capabilities  
Year by year

**KAZANCI**  
ENVIRONMENTAL

With our innovative products,  
we are the choice of professionals  
**In +80 countries on**  
**6 continents.**

**1993**  
Our journey starts

Supply business for microbial products

1993

Supply business for odor neutralizers

1999

Production of Microlife microbial products

2000

Production of Rielli water treatment plants

2003

2011

Commissioning the largest odor neutralization project of its date in Turkey

2013

Bioremediation work of petroleum polluted soils in Nigeria

2015

Exporting Microlife and Neuroair products to China

2016

Exporting Rielli MBR plants to Brasil as of its date the further most location we export

2009

First application of MBR technology

Production of Neuroair odor neutralizers

2007

2005

Our first export

**2024**

Our customer network extending on 6 continents more than 80 countries

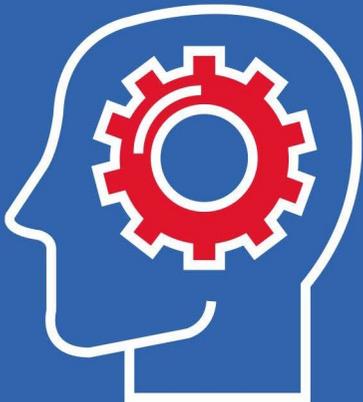

More than **50%**  
of the revenue  
generated from exports

Average of **49%**  
annual growth  
during the last three years

International experience  
with exports to  
**70 countries**

Tailor made solutions  
provided by a team of  
expert engineers and craftsman

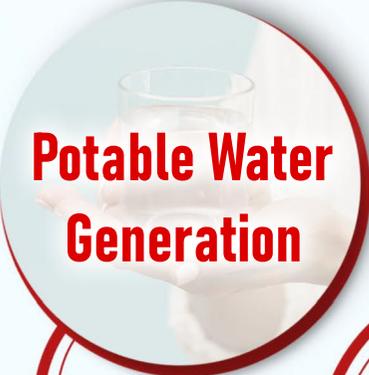

Longterm relations with  
satisfied customers and  
dedicated employees

Expertise on plants  
from 200 lt/hr to 200.000  
lt/hr capacity

**Potable Water  
Generation**

**Grey Water  
Recycling  
& Recovery**

**Recovery and Recycling  
of Wastewater**

***Rielli***

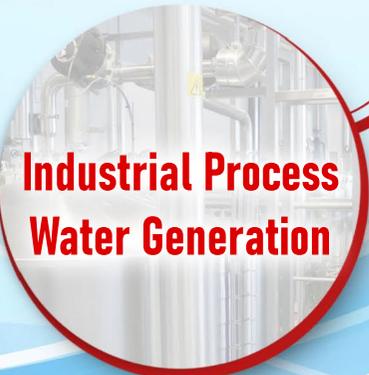

**Design and production of  
tailored made innovative  
industrial water treatment  
plants**

**Desalination**

**Recovery of  
Filter Backwash  
Waters**

**Industrial Process  
Water Generation**

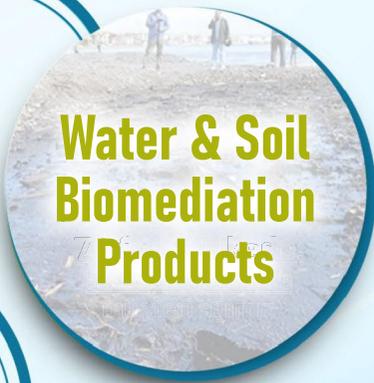

**Brackish  
Water Treatment**

**microlife**  
bacterial products

**Design and production of tailored made innovative industrial water treatment plants**

**Waste Water  
Treatment Plants**

**Landfills  
and  
Garbage Rooms**

**Animal  
Shelters**

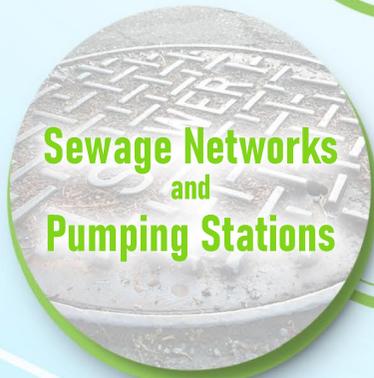

**neutroair**

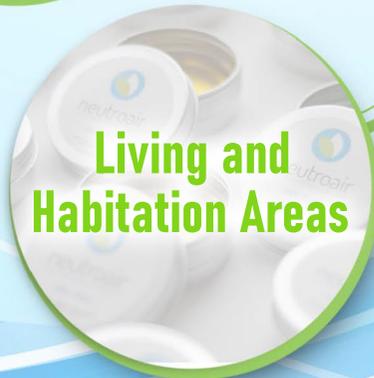

**Production of odor  
neutralizers made of  
natural oils**

**Industrial  
Odor Removal**

**Sewage Networks  
and  
Pumping Stations**

**Living and  
Habitation Areas**

**Kitchen  
Exhuasts**

At close reach  
to our customers

Tailor designed plants  
for your needs

Similar  
Time Zone

More than 30 years  
of experience

Direct cooperation with  
equipment manufacturers

# *Why Rielli?*

Large stock  
of equipment

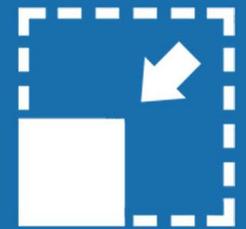

Cost efficient  
production process

High Quality  
Craftsmanship

Low energy  
consumption

Ergonomic and  
compact design

# Reverse Osmosis Desalination

## Project Detail

Reverse osmosis drinking  
water

production plant designed to  
obtain domestic water for a  
Mexican customer

## Capacity

**760 m<sup>3</sup>/day SWRO**

**260 m<sup>3</sup>/day BWRO**

## Project Year

**2023**

# Ultrafiltration Plant

**Project Detail**  
**Standard design, inside-out ultrafiltration plant.**

**Capacity**  
**3 m<sup>3</sup>/hour**

**Project Year**  
**2018**

# Drinking Water Production Plant

## Project Detail

Reverse osmosis facility for the production of drinking water from well water with a capacity of 4 m<sup>3</sup>/hour for our business partner operating in Oman

## Capacity

4 m<sup>3</sup>/hour

## Project Year

2018

# Gray Water Treatment Plants

## Project Detail

MBR process gray water recovery plants in various sizes for our business partner operating in Jordan

## Capacity

10 m<sup>3</sup>/day

20 m<sup>3</sup>/day

## Project Year

2019

# MBR Systems

## Project Detail

Rielli MBR system with ceramic membrane, produced with a capacity of 150 m<sup>3</sup>/day, operating in Turkey

Capacity

150 m<sup>3</sup>/day

Project Year

2023

# MBBR Waste Water Treatment Plant

## Project Detail

Factory waste water recovery facility with a capacity of 50m<sup>3</sup>/day, which we produced for a business partner in Nigeria.

**Capacity**

**50 m<sup>3</sup>/day**

**Project Year**

**2022**

# Ultrafiltration Plant

## Project Detail

Standard design, inside-out ultrafiltration plant.

## Capacity

**3 m<sup>3</sup>/day**

## Project Year

**2018**

# Reverse Osmosis Drinking Water Plant

## Project Detail

Another reverse osmosis hydroambiante plant designed to obtain drinking water for a Mexican customer

## Capacity

**500 m<sup>3</sup>/day SWRO**

**96 m<sup>3</sup>/day BWRO**

## Project Year

**2023**
