

Compliance Assessment

Built for compliance software providers. Offer your clients faster, smarter document evaluation. Fully integrable and cost effective.

Exclusively **for B2B integration partners** who develop or operate legal and compliance-related software platforms.

Our Compliance Assessment Service is designed for software providers looking to integrate automated legal document evaluation into their solutions.

Significant cost reduction on compliance assessments

Faster response for legal review processes

Standardized, explainable results for experts' review

Compliance Assessment Service

It is especially valuable for:

Compliance software vendors

Teams supporting internal compliance departments

Legal tech integrators

SaaS providers with compliance modules

Pricing

Affordable legal intelligence.

Get results at a fraction of a legal expert's cost
- you only pay for the evaluation API requests you make.
