# Experience the power of automagical **EU Grant Management**

Kronis 2025

The Problem

In the intricate world of managing EU grants, organisations often find themselves navigating a **complex maze of rules, regulations, and paperwork**.

The **administrative burden** can be overwhelming, detracting from the core work of your team and the pursuit of your mission.

This is where Kronis® steps in.

Introducing Kronis®

Kronis is an innovative SaaS (software-as-a-service) solution designed specifically to fill the gap in the market for intuitive, **easy-to-use EU grant management software.**

More than a Software

Kronis **is your partner in your journey towards effective and efficient EU grant management**, by simplifying administrative tasks, ensuring compliance, and offering insightful analytics.

Fit for purpose

Forget about impossible integrations or spreadsheets interlinked.

Simplicity

Kronis will revolution the way you interact with administrative burdens.

Scalable

You only pay for the active projects. Grow as you raise more funding.

Eligible

Kronis qualifies as an eligible cost under your Horizon Europe budget.

Updated

The platform is always updated and compliant with EU regulation.

We understand the **unique challenges faced by organisations dealing with European R&D grants**, and we've built Kronis to address these issues head-on.

Kronis
Features

Kronis allows your organisation to focus on what truly matters: **delivering impactful R&D projects**. Make your R&D granted projects flow.

You can **report**, **analyse** and **plan** all your organisation's projects.

Kronis Report

Our comprehensive tool is **designed to simplify every aspect of project reporting**, from timesheet management to expenses tracking.

With **Kronis**, you'll have everything you need to stay organised, efficient, and compliant.

Timesheet Management

Customize your working days based on your labor agreement and location. Define all your office locations and their available working calendars.

Calendars and locations

Ensure accurate time tracking for all personnel on your team, taking into account assignments, holidays, and absences.

Personnel costs

Ensure accurate time tracking for all personnel on your team, taking into account assignments, holidays, and absences.

Multi-unit approach

Switch between hours, Person-Months, or Day Equivalents as needed.

Expenses reporting

Easily track all EU projects expenses categories in Kronis. Upload invoices and payment slips with ease.

Travel expenses

Keep track of all tickets and invoices for every trip, sensuring accurate expense reporting.

Automatic reminders

Kronis's alert system will remind employees and their managers to sign missing timesheets or expense sheets, ensuring nothing falls through the cracks

Kronis Analyse

Make informed decisions about budget allocation and resource management. You can keep an eye on project expenditure in real time.

Kronis dashboard provides insights into spending on a project-by-project basis, as well as by individual employee.

Real-Time expenditure analysis

Get a bird's-eye view of your project expenditure as it happens, so you can stay on top of your budget.

Per-Project analysis

Monitor spending on each project in detail, so you can identify areas where you may need to adjust resources or budgets.

Per-Employee analysis

Analyze spend by individual employee, so you can see how team members are contributing to the project and spot opportunities for improvement.

Export

Download timesheets and cost reports in a variety of formats, including PDF, CSV, and Excel. This flexibility ensures that you can easily integrate your timesheets into your existing systems and workflows.

Different time frameworks

Select months, quarters, years or the reporting period of your choice. Data will be automatically based in the time framework you are using.

Kronis Plan

Effective planning is the foundation of successful project management.

Streamline every aspect of your project planning process with Kronis, from resource allocation to automatic generation of timesheets.

Smart timesheets

Customize your working days based on your labor agreement and location. Define all your office locations and their available working calendars.

Cost forecasting

Discover the best way to assign your resources across projects and work packages.

Personnel asignment

Ensure accurate time tracking for all personnel on your team, taking into account assignments, holidays, and absences.

Kronis
Automations & Integrations

kronis
Powered by Sploro

Designed to **drastically reduce your administrative burdens**, allowing your organisation to focus more on its core mission.

Automated Grant Agreement Parsing

Upload the PDF of a GA, and our system will intelligently parse and extract all necessary information, **saving you countless hours of manual data entry.**

Excel Preload Capability

KRONIS simplifies your data transfer process with its ability to **preload information from Excel files.**

Verification of New Projects

KRONIS system **automatically verifies new projects won by your organisation** as soon as they are published by the European Commission.

Integration with Airtable

Kronis can integrate seamlessly with Airtable. This allows you to manage your project information in a simple, visual way that's easy to share with your team.
