Investment Approach

1

Investment Type	<ul style="list-style-type: none">• Equity• Debt
Focus	<ul style="list-style-type: none">• Business Model: a clear impact focus (SDG)
Markets	<ul style="list-style-type: none">• EU: primarily DACH / Benelux / Nordics
Size	<ul style="list-style-type: none">• EUR 500k – 5m per funding round
Start-up Requirements	<ul style="list-style-type: none">• Proof of Concept: EUR 500k+ in annual sales (exemptions)• Lead investor contributes at least 30% to the round
Minimum Shareholder Rights	<ul style="list-style-type: none">• equal rights like other investors with regards to: highest share class / (no) liquidation preference / anti-dilution protection / tag-along & drag-along rights

We are Invesdor. Your new co-investor.

About Us

As leading impact investment platform, we have a solid track record and long experience in funding future-oriented companies.

Our Role

As co-investor, we provide streamlined support with minimal strategic involvement - no voting or participation rights, just standardized shareholder terms that protect start-ups and co-investors.

Our Value

We reliably help close funding rounds by contributing alongside a lead investor / anchor investor (new investor or existing shareholder), who must commit at least 30% of the total funding. Our tickets are up to EUR 5m.

IMPACT INVESTMENT PLATFORMS

Perception vs. Reality

1

Admit it: you probably had one of those biases about impact investment platforms too, right?
No worries, we are here to make things clear.

False Assumptions

Impact investment platform are only for realizing small projects that are not existing yet.

There are only convertible bonds or loans possible.

The company to be funded doesn't receive real equity and have to pay high interest.

Thousands private investors become shareholders in the company and completely mess up my cap table.

Every single private investor has voting rights and can hinder the decision-making process.

The shares can be transferred to other investors, over which the company has no control.

Only investors from the same country as the company can participate in a funding round.

Reality with Invesdor

No. Impact investment platforms have evolved into a **valid alternative financing form** for growth companies from different industries!

No. Both **debt and equity** is possible with Invesdor!

No. Invesdor establishes and coordinates a **trust foundation** (= "STAK") specifically for the company to get funded with equity!

No. All private investors are "**pooled**" into the **trust foundation** and get depositary receipts in exchange for their investments!

No. The trust foundation **has only one voting right**. It is represented by the founder / CEO of the company!

No. The representant of the STAK (typically the CEO of the company) **agrees / disagrees with each trade** and thus control each transfer!

No. One of Invesdor's USP is its ECSP-License which enables **cross-border investments**!

INVEDOR GROUP

Portfolio Selection - Equity

I

Successful DACH - Green Tech

Watergenics
Revolutionizing Water Quality: Combatting Pollution with AI-Powered Monitoring

Invested €1,471,742.82

Price per share €260.67
