

LYANNA

AI-Powered Hospital Information
Management System

Powered by SeeYouDoc | www.lyanna.ai

International Health Days 2026 – Vienna

The Status Quo: Legacy Systems

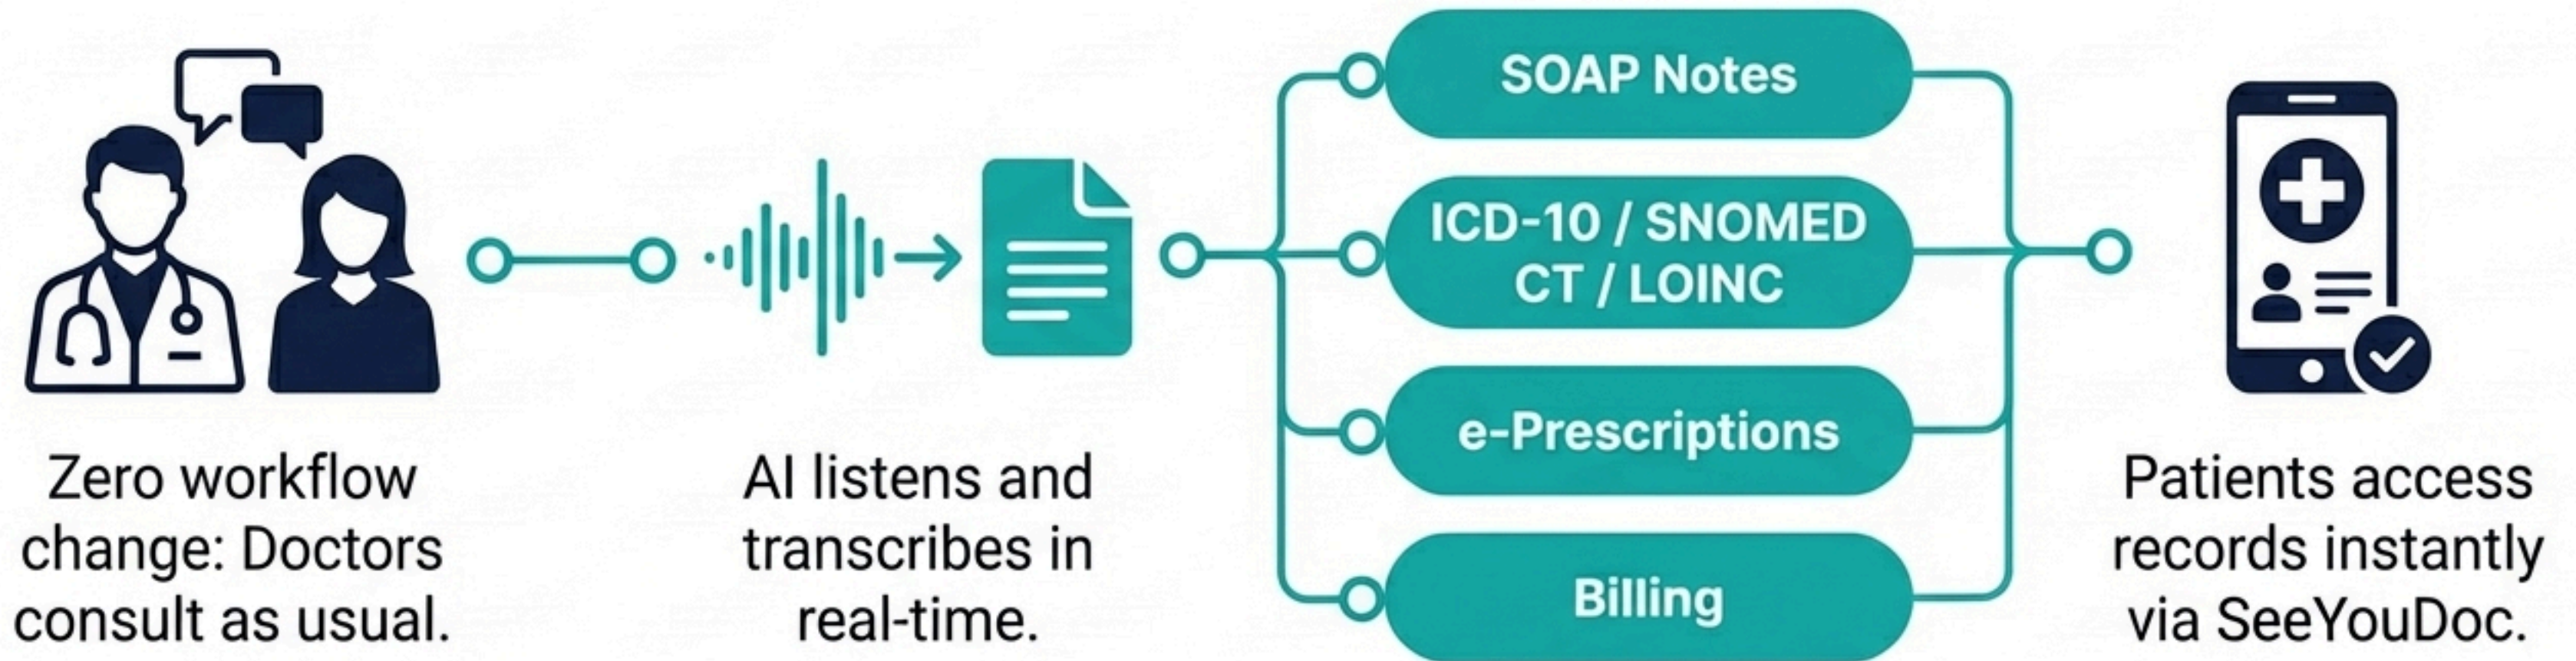

- ✗ **Cost:** \$100K–\$500K+ per year
- ✗ **Deployment:** Takes months to years
- ✗ **Burnout:** Doctors spend 30–40% of their time on manual documentation (no AI)
- ✗ **Overhead:** Requires on-site servers and dedicated IT staff

Patients have no access to their own records.

Data remains trapped in costly, inaccessible silos.

Doctors Talk. AI Documents. Records Flow.

Modular, AI-powered system

Multi-facility support
(hospital networks, clinic chains)

Cloud or on-premise
(Deploys in just 8–12 weeks)

Triage to Billing. One Platform. All Included.

All 8 modules included in every license. **No per-module fees.**

From Conversation to Complete Medical Record in Seconds

5–10 minutes of manual entry per patient.

30 seconds of review.

1. SOAP notes (with ICD-10/SNOMED codes)
2. Prescriptions (integrated with real-time pharmacy stock)
3. Medical certificates & lab requests
4. Referral notes

No training required. The AI adapts to the doctor, not the other way around.

Simple, Transparent Pricing

Free Pilot
 Up to 100 patients. All 8 modules + AI Scribe. Zero risk.

Enterprise Tier (\$20,000/year)
 Unlimited patients. Multi-facility.

*Additional one-time onboarding (\$10K) and managed CI/CD services (\$5K/mo).

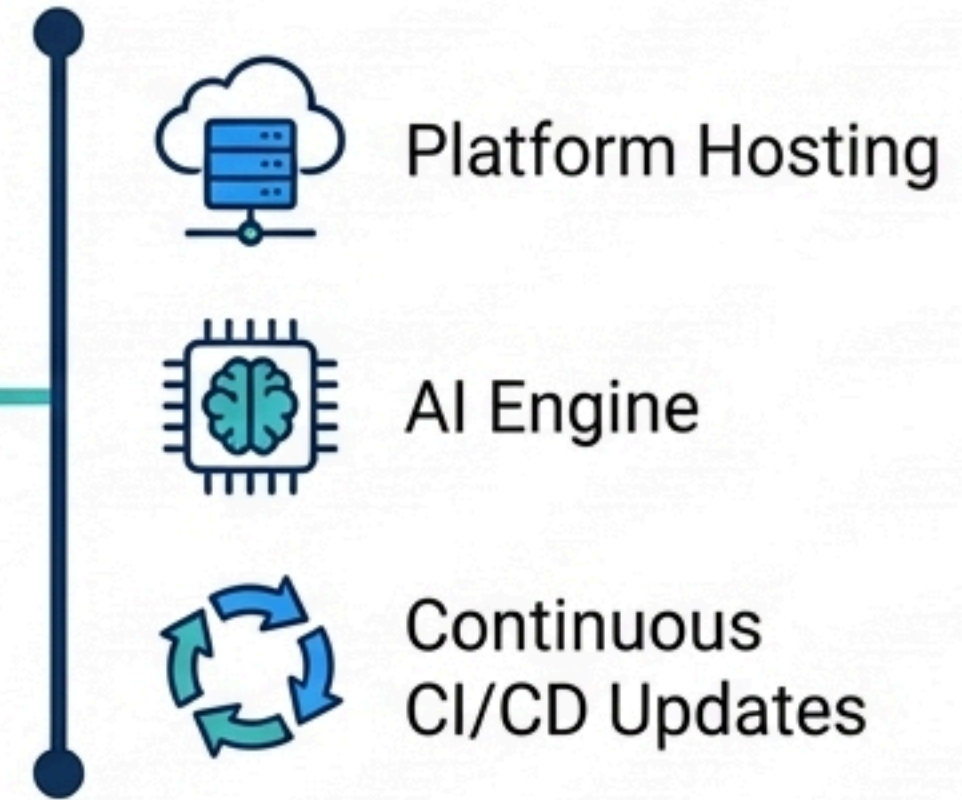

Metric	LYANNA	Legacy HIMS
Year 1 Cost	~\$90K	\$100K-\$500K+
Ongoing Annual Cost	\$80K/yr	\$100K-\$500K+
AI Documentation	Included natively	Not available
Deployment Speed	8-12 weeks	Months to years
IT Overhead	Fully managed by SeeYouDoc	On-site servers & dedicated staff

Distribute LYANNA in Your Market

You (Local Partner)

SeeYouDoc

Revenue Share

✓ **Easy Sell:** \$20K/year price point is a fraction of legacy costs.

✓ **Differentiated:** AI Scribe is a demo that sells itself.

Proven model: DoctorKit already distributes SeeYouDoc internationally.

✓ **Frictionless:** Free tier allows prospects to pilot at zero risk.

✓ **Global Fit:** HL7 FHIR, ICD-10, SNOMED CT compliant.
