

## PRECISE COLORMEASUREMENT NEWLY DEFINED

DeltaLab is the new color measurement system by **PREMOSYS**<sup>®</sup>, specially developed for industrial applications, where highest accuracy and reliability are required.

**PRECISE COLOR MEASUREMENT** | Cutting-edge technology at the forefront of innovation

**BENCH-TOP SYSTEM** | Stand-alone device for flexible use in any environment

**RELIABLE HIGH PERFORMANCE** | At an affordable price

### APPLICATIONS

- Quality assurance in laboratory + production
- In-process sampling measurements
- Incoming and outgoing goods inspection
- Suitable for both large and small production volumes

### TECHNICAL DETAILS

- Color deviations in  $\Delta L$ ,  $\Delta a$ ,  $\Delta b$ ,  $\Delta ab$ ,  $\Delta E$
- Measurement time under 2 seconds
- Long-lasting LED light source (60,000 hours)
- Ambient light and temperature compensation

### BENEFITS FOR YOUR PRODUCTION

- COST-EFFICIENT | No calibration costs, no sample preparation required
- USER-FRIENDLY | Intuitive operation via a 4.5" touchscreen
- DATA MANAGEMENT | Automatic measurement data logging via USB

Bulk materials + Granules

Pastes + Creams

Inhomogeneous surfaces + Food

Pulver + Powders
