

# BKB PRECISION

**The plastics machining company for the high-tech industry**

- Specialist in machining PEEK Manifolds
- International customer base
- With a precision of up to 3µm
- High Mix, Low Volume, High Complexity

Machining up to 3µm precision, assembly, and cleaning of high-quality plastics.

# ASSEMBLY & CLEANING

Unburdening: compositing, packaging, cleaning, laser engraving, gluing and testing

## COMPOSING

- Assembly & subassemblies
- ISO class 7 clean room

## GLUING

- UV-adhesive-bonding
- 2-components
- Specific glues

## WELDING

- Infrared welding
- Hot gas welding

## CLEANING

- Grade 4 classification
- ISO Class 7 protocols

## LASER ENGRAVING

- Laser marking

## PACKAGING

- Cleanroom packaging
- ISO Class 7

# SUSTAINABLE BKB PRECISION GROUP

- Sustainability report 2023 & 2024
- Referring to the GRI standards (Global Reporting Initiative)
- Our sustainability targets:
  - By 2025, our aim is to recycle 50% of our organisations waste
  - By 2030, we aim to reduce our GHG emissions by 50% compared to 2023
