

GLENS GLOBAL INTELLIGENCE LIMITED

INTELLIGENCE. TRUST. OPPORTUNITY.

Investor Teaser | HKTDC Belt & Road Summit Deal-making Platform, Hong Kong

CONFIDENTIAL — for discussion purposes only. Not an offer to sell or a solicitation to buy securities.

RAISING USD 3.5 – 5.0M	SECTOR Strategic Intelligence / InvestTech	HQ / FOCUS Nairobi, Kenya — East Africa
---	---	--

The Opportunity

Glens Global Intelligence Limited ("Glens") is a Sub-Saharan Africa-based intelligence, due-diligence, and investment facilitation firm solving the biggest barrier facing foreign capital entering African markets: information asymmetry. Glens gives investors a trusted, on-the-ground partner: from verified deal sourcing through execution and monitoring.

The Problem

- Verified deal flow, credible local partners, and trustworthy intelligence are hard to access from outside African markets.
- Due diligence remains manual, slow, and fragmented: raising cost and risk for cross-border investors.
- Once capital is deployed, investors typically lose visibility into execution and impact.

The Solution

An integrated six-pillar ecosystem: Incubation & Venture Support, Due Diligence & Verification, Advisory & Wealth Support, Investment & Capital Matching, Project Monitoring & Execution, and Talent Development & Recruitment — built around a proven five-step methodology: Engage, Verify, Match & Structure, Execute, Monitor & Report. This raise builds the technology platform that digitizes that methodology into a scalable, auditable workflow.

Why Now

- A built-in, incubation-fed deal pipeline gives investors a curated shortlist, not a cold market.
- An established, revenue-generating advisory practice with an active client base already in Kenya.
- Direct access to cross-border capital through platforms such as HKTDC's Belt & Road Summit.

The Ask

Glens is raising USD 3.5 – 5.0 million in growth capital to build and scale its verification and matching platform: funding technology development, key product/technology hires, business development, and working capital, with target MVP launch within 12 months.
