

Who we are

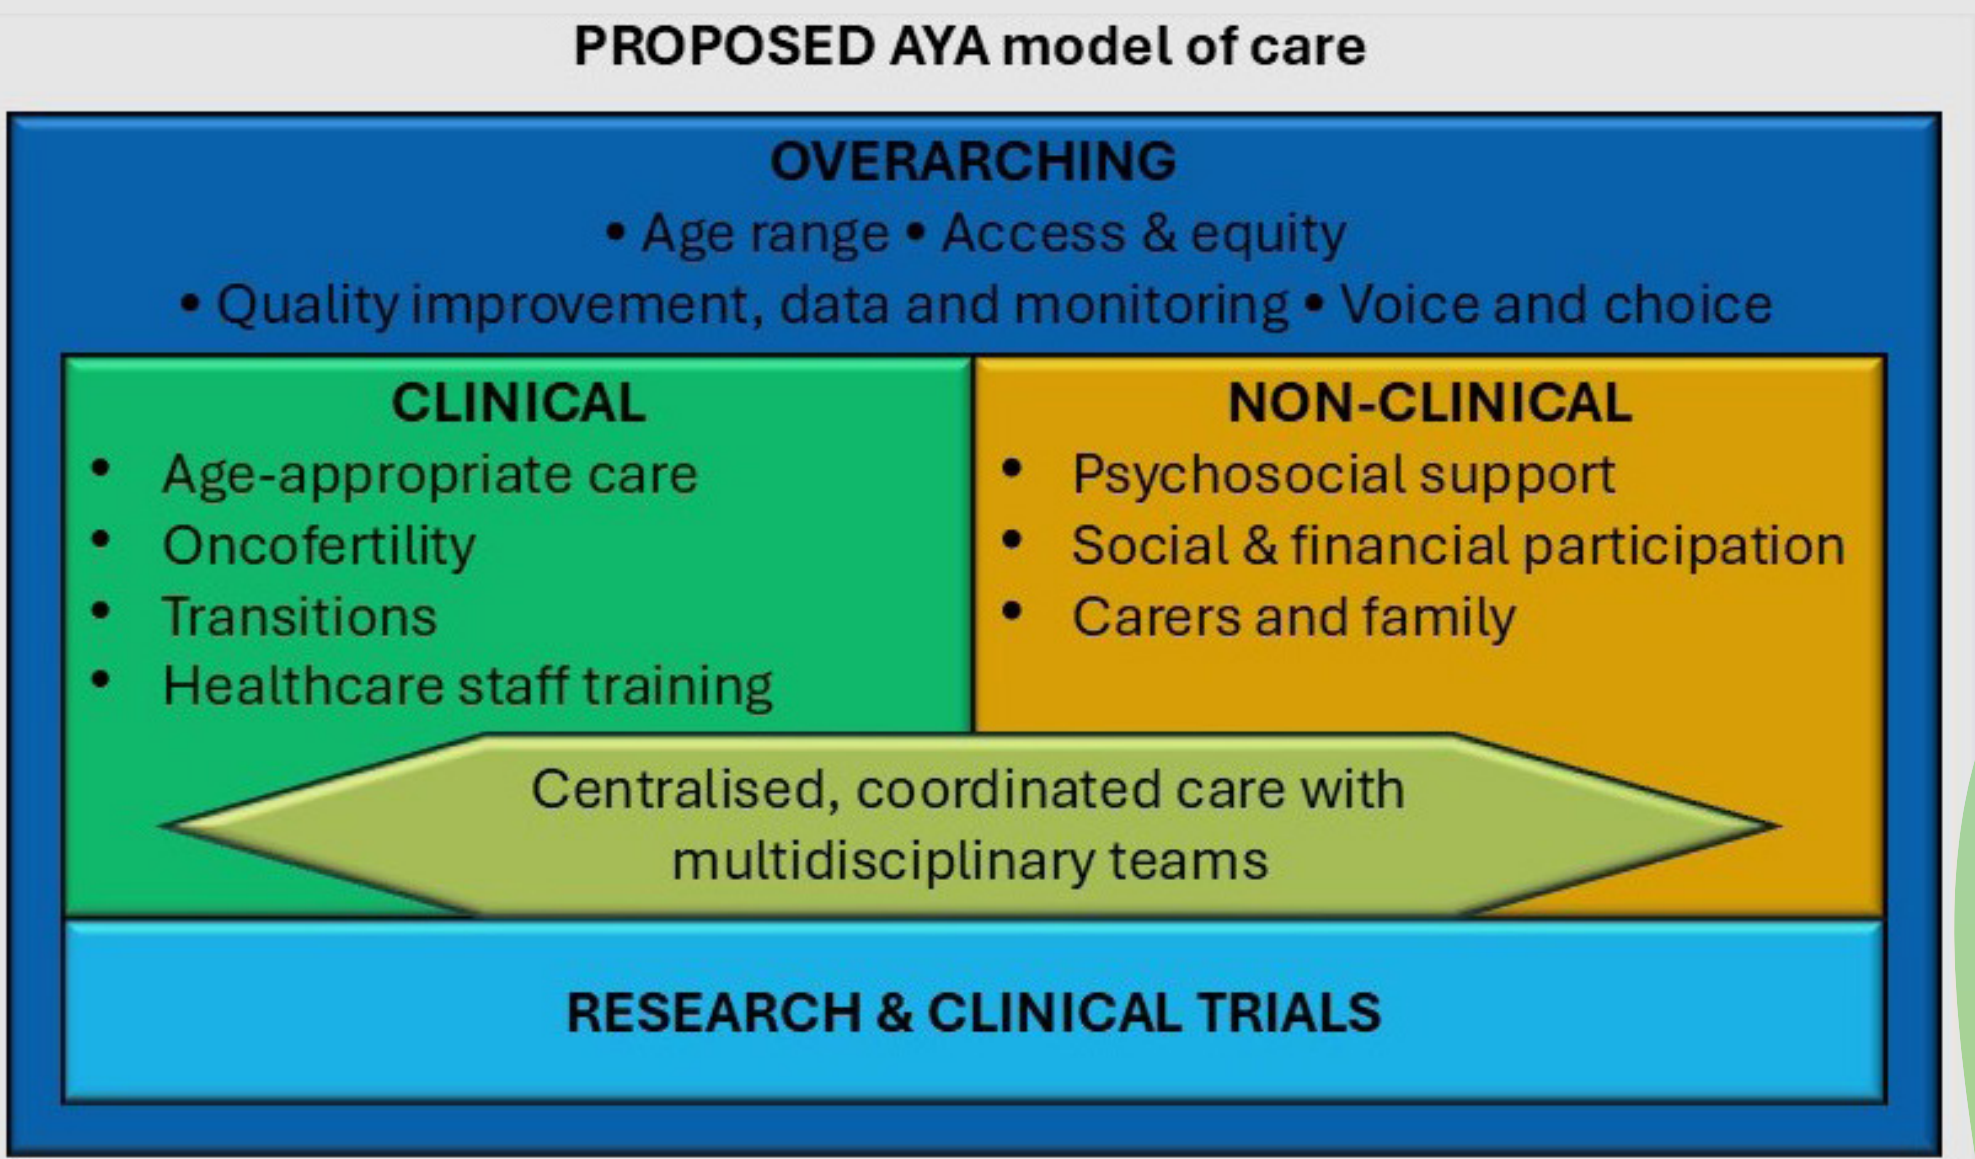

A multidisciplinary team of researchers, clinicians and policy experts working with the European Commission to strengthen evidence-based, age-appropriate cancer care for adolescents and young adults across Europe.

What we are working on

Mapping AYA cancer care across the EU, Norway and Iceland, using a validated model of care to identify common strengths, gaps and opportunities for future service development.

What's the one thing we need next

Continued collaboration with clinicians, policymakers, patient representatives and national experts to build momentum, promote shared learning through knowledge exchange, and support high-quality, age-appropriate AYA cancer care across Europe.

EUROPEAN UNION

AYA study

Exploratory study on the provision of care for Adolescent and Young Adult (AYA) cancer patients in the Union
