

# hübris brewery Székesfehérvár

artisanal,  
but not artsy..

hübris

# who are we?

Hübris is a 7 years old beer brand, managed by the founding master brewers up to this day. two yeras ago, with the help of a significant capital investment, we upped our game and created one of the most modern craft breweries in the country. our automated brewery, equipped with a 2000 liter brewhouse, lies close to the Székesfehérvár city center, where work is already under way since spring, following the successful brew tests. we currently brew 9 types of beer, distributed in 0,33l bottles, cans and barrels.

# our belief

the basic principles of our beers are simplicity,  
clarity, style and humor.  
we are not the bearded types, although today  
we did not shave

we are not more than beer.  
but not less either..

# our core products but we have more...

# our main soft-drinks
