

What is ClinicONE?

A one-stop smart clinic solution, delivering a better patient experience, improved payment collection, and efficient clinic operations and secured electronic health record management for the smart clinic.

CONNECT. 

MANAGE. 

SECURE. 

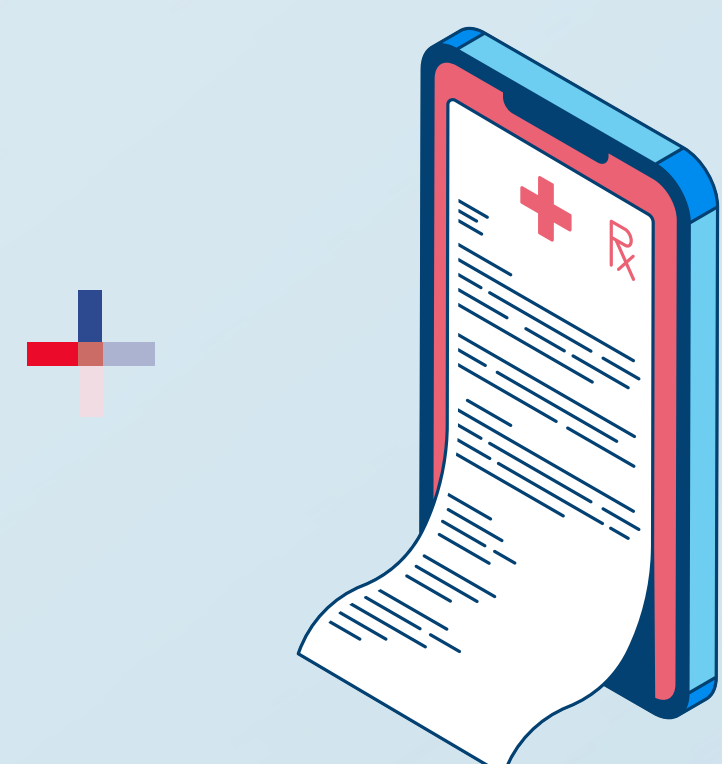

My Own Clinic Mobile App

Build your clinic app: connect with patients for appointment, record sharing & push reminders.

Online-to-Offline Patient Appointment

Allow patient-facing, admin-approved O2O appointments, customizable by time & location.

Patient eForms

Build your own clinic eForms for registration, consent & surveys—all saved for efficient clinic improvement.

Multiple ePayments Support

Support multiple payment methods (method (WeChat Pay, AliPay, Visa, Master, AE, FPS) with patient receipt for ease of payment collection.
*Requires account setup and additional charge applies.

AI Scribe Serive with HeidiHealth

Powered by Heidi, this AI scribe automates medical notes, allowing doctors to focus entirely on patient care.

Admin friction shouldn't destroy clinical capacity.

30%

Reduction in administrative burden.

Patients deserve to feel seen and heard.

25% +

Increase in daily patient capacity.

Medicine is not one size fits all.

40% +

Higher patient return rates.
