Municipality of Sopot, Poland

- Sopot is a medium-sized European city addressing ageing society challenges
 - the growing share of elderly residents,
 - the need to enhance independence among older adults while reducing institutional care costs (med-tech/e-health/rehab-tech),
 - the development of the **silver economy**—markets for products and services tailored to ageing populations,
 - the implementation of solutions aligned with the **Smart city** & the Long Life Health **city** concepts.

Foreign Project Experience

- Active in innovation, smart city, and social policy
- Strong experience in EU and international cooperation
 - Support services for EU Smart Communities – digital twins
- Kwido - development and testing of new solutions for the modern telecare tool for older adults living independently
- Data Opener Central Europe / DOOR CE – open data platform
- Her Voice – Her Power, Our Future!- promoting women's rights, gender equality

Sopot research support asset

- Living Lab (testing bed) for digital health solutions
- Access to elderly end-users
- Integration with healthcare and social systems
- Strong cooperation with R&D and universities
- Focus: ageing, med-tech, smart city for the Long Life Health

Project idea and collaboration

- Smart Silver City & Med-tech Ecosystem
- Builds a collaborative med-tech ecosystem across public, research, healthcare, and tech sectors.
- Develops digital health solutions for ageing populations.
- Operates as a living lab for Long Life Health based on data-driven med and care solutions.
- Supports startups and strengthens public-private partnerships.
- Drives innovation-led economic growth, positioning Sopot as a Smart Silver City.
