**Our philosophy is simple.
We want to bring joy
of munching!**

The Beskidzkie brand was established in 1993 in Osiek, small village with panorama on green Beskid. Since beginning we're family-owned brand with polish capital, which in accordance with its strategy, plans to stay that way. History began from production of „Beskidzkie” sticks, which every year strengthen their position on the FMCG market in Poland. Today we're one of most popular Polish companies offering salty snacks including: sticks, crackers, corn snacks, crispy potato snacks, popcorn as well as products for children or sweet line snacks.

We focus on high quality Polish ingredients and we use it to create unforgettable, classic flavours as well as new and innovative connections. We are guided by energy and curiosity to the world. And above all, we know that every nice moment is worth munching on!
