# A direct European CNC manufacturing partner

## GIG Solutions

Metalúrgica CNC GIG Solutions, Lda. is a Portuguese company focused on CNC machining and precision components manufactured according to customer drawings and technical requirements.

Our objective is to build direct, long-term supply relationships with European industrial manufacturers.

### COMMERCIAL FOCUS

Repeat references, recurring series and responsive industrial work.

### QUALITY ROADMAP

ISO 9001 certification is a planned objective; this portfolio does not claim current certification.

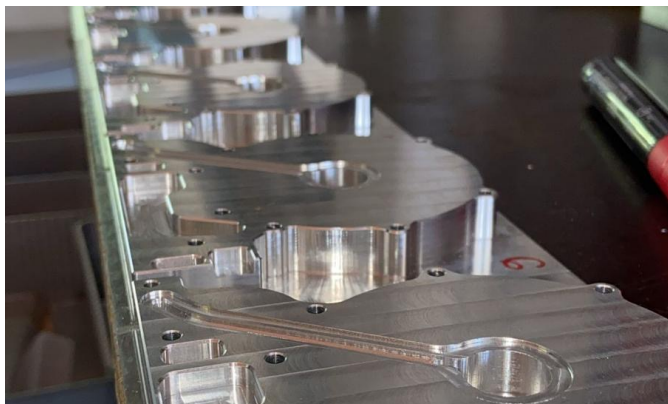

### EUROPEAN BASE

Manufacturing in Salvaterra de Magos, Portugal.

### DIRECT SUPPLY

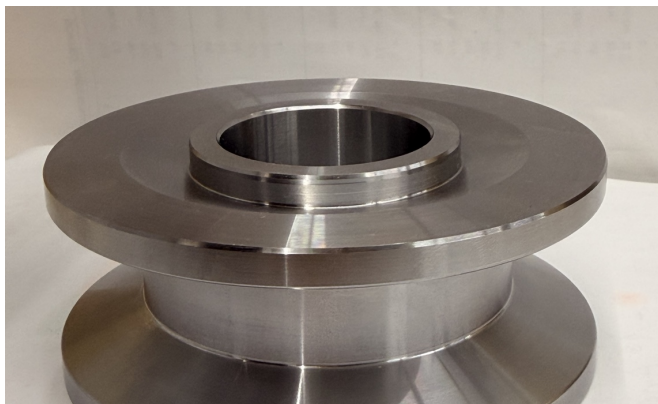

Direct technical and commercial relationship with industrial customers.

# Complexity, detail and machining flexibility

## Complex CNC milling

Multi-level pockets, contours, drilling and machined surfaces.

## Precision turned / rotational detail

Precision-machined industrial geometry.

## Different geometries / finishes

Machined components with varied profiles.

### CNC MACHINING

Precision machining for industrial geometries.

### RECURRING PRODUCTION

Capacity for repeat batches and scheduled industrial supply.

### MADE TO DRAWING

Production according to customer specifications.

### RFQ REVIEW

Material, tolerance, quantity and delivery reviewed before quotation.

# From precision components to recurring series production

These real production images demonstrate GIG Solutions' ability to manufacture repeat references - not only one-off prototypes.

## REPEAT REFERENCES

Flexible CNC capacity for prototypes, repeat batches and recurring production. We are especially interested in projects that develop into stable, scheduled supply relationships.

# A straightforward path from RFQ to repeat supply

01

## RFQ

Drawing, material, quantity and delivery requirements.

02

## REVIEW

Technical feasibility, process and inspection needs.

03

## QUOTATION

Commercial proposal based on the agreed scope.

04

## PRODUCTION

Machining, control and delivery.

05

## REPEAT SUPPLY

Stable references and scheduled recurring orders.

### WHY GIG SOLUTIONS

European production | direct manufacturer contact | made-to-drawing components | recurring supply focus | flexible industrial support

### NEXT STEP

Send us a technical drawing, target quantity and delivery requirement. We will review feasibility and prepare a quotation for suitable projects.

# Let's discuss your next CNC sourcing requirement.

GIG Solutions is available to review new European supplier opportunities and recurring machining projects.
