

Who we are

EUonQoL is a Horizon Europe project bringing together European research, cancer care, patient and other stakeholders to improve quality-of-life assessment in cancer care.

What we are working on

We are developing the multilingual EUonQoL-Kit questionnaire and Survey Hub to measure quality of life, compare outcomes and identify inequalities across Europe.

What's the one thing we need next

We need widespread adoption of these tools to enable large-scale quality-of-life monitoring and support better cancer policies across Europe.

**5 years Mission Cancer:
Stronger Through Connection**
